Introductory Remarks by the Director of the Office for Good Governance at the Office of the Prime Minister

Dear All,

We continue again this year with the successful practice of publishing the annual report on the public financial support to the non-governmental organizations in the Republic of Kosovo. undoubtedly, this is a joint success of the Government of the Republic of Kosovo and the Office for Good Governance at the Office of the Prime Minister, and of the civil society in Kosovo. In addition to publishing this Report, the launching of the platform for the public financing of the NGOs which contain all data on the public financing of the NGOs since 2015 is an outstanding success and another step towards increasing the transparency of public institutions in this area. We consider 2019 to be a successful year for the collaboration between the institutions of the Republic of Kosovo with the organizations of the civil society. This collaboration has continued with the purpose of implementing the priorities of both sectors and to achieve the governmental objectives for transparency, accountability and responsibility as defined by the Regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of the Public Financing of the NGOs. The foundation for this collaboration has been laid out also in the Governmental Strategy for Cooperation with the Civil Society 2019-2023.

The Office for Good Governance at the Office of the Prime Minister has given and continues to give a valuable contribution to advance transparency and accountability in the provision of public financial support for the NGOs in 2019 also. The contribution of the OPM should be viewed beyond this report, in particular as it relates to providing support to the public officials and the NGOs via training programs and raising the capacities of the public institutions to better implement the Regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of the Public Financing of the NGOs.

This report enables us to apprehend the progress that Kosovo has made in the sphere of the public financing of the NGOs, and the scope of collaboration between the Government and the civil society. At the same time it emphasizes the challenges that need to be addressed in the future so this area advances further. This report provides a series of recommendations and the Office for Good Governance/Office of the Prime Minister is committed to implement these in practice jointly with the public institutions.

The Office for Good Governance/Office of the Prime Minister encourages all public institutions to strengthen their mechanisms for the purpose of applying the requirements of the legislation in power relating to the public financing of the NGOs. This will enable the increase of confidence in the public institutions and create a partnership with the civil society organizations. The application of the procedures, criteria and standards of transparency, accountability and competitiveness shall make it possible to achieve the objectives of the public financing of NGOs.

Sincerely,

Habit Hajredini, Director, Office for Good Governance – Office of the Prime Minister

1. INTRODUCTION

The publication of the comprehensive report on the public financial support to the NGOs in the Republic of Kosovo for 2019 has become a continued practice of the Government of the Republic of Kosovo in the last four years. This report aims to increase the transparency and accountability of the public institutions, enabling at the same time the creation of a mutual trust between the public institutions and the civil society. Therefore, the continued publication of the annual reports on the public financial support to the NGOs has yielded its positive effects in improving the applicability of the legal regulations that cover the area of the public financing of the NGOs in the Republic of Kosovo.

From the time of the first report for 2015-2016, when there were no unified rules with regards to the criteria, standards and procedures for the public financing of the NGOs and up until 2019, one can notice a qualitative improvement both in the aspect of establishing the legal framework and its application in practice. The Office for Good Governance at the Office of the Prime Minister is working on continuous basis with the public institutions to increase the transparency, accountability and the apply accordingly the legal framework that regulates this area. The publication of the Annual Reports for the public financial support to the NGOs has received positive appraisal from all institutions, the civil society and in the Report of the European Commission being considered as a positive step towards greater transparency of the public financing of the NGOs.

The report on the public financial support for the NGOs in 2019 incorporates information on the public financial support for the NGOs that has been provided by the Government of the Republic of Kosovo and the Municipalities to support the projects from the Non-Governmental Organizations in various areas related to the priorities of the Institutions of the Republic of Kosovo and the Kosovo society. This financial support of the NGO projects intended to increase collaboration with the civil society, in particular with the non-governmental organizations. The report covers all budgetary organizations of the central and local level at any form they have provided financial support to non-governmental organizations.

Based on the data collected by the Budgetary Organizations, the web pages of the Budgetary Organizations and the direct work that the Office for Good Governance / Office of the Prime Minister in building the capacities of the Budgetary Organizations, there can be noted an advancement in terms of the application of the regulation concerning the public financing of the NGOs. Already it is noted a good practice established with all budgetary organizations to launch public calls for financing NGO projects. Mostly, the institutions published such calls on their web pages, which are accessible online. Nonetheless, there are still cases of providing direct public financial support. Also, even though the regulation has clear requirements, some of the budgetary organizations in spite of publishing public calls, they were not fully in line with the requirements of the regulation, or were not quite clear or interrelated with the priorities of the institutions defined by strategic documents.

With regards to the reporting and publication of information concerning the public financing of NGOs in 2019 by Budgetary Organizations, there is a lot of room for improvement because even

at the time when this report was drafted some budgetary institutions failed to publish the reports on the public financing of the NGOs in 2019 and failed to submit them to the Office for Good Governance / Office of the Prime Minister, in compliance with the requirements in the Regulation.

Consequently, this year too, with the purpose of better informing the public with regards to the public financial support to the Non-Governmental Organizations, the Office for Good Governance cooperated with the Ministry of Finance, namely the Treasury. The purpose was to prepare an as comprehensive report based on the payments that the budgetary organizations have executed for beneficiaries registered with the Treasury as Non-Governmental Organizations. The Annex contains the data reported by the Budgetary Organizations, i.e. data as per the requirements in the Regulation for those organizations that have met the legal requirement to report. We deem that the publication of this report shall contribute to increasing the transparency and accountability of the public institutions, and at the same time shall have impact on improving the cooperation with the civil society in the Republic of Kosovo.

The Office for Good Governance at the Office of the Prime Minister, assisted by the donors, has worked hard with many Budgetary Organizations to strengthen their capacities with regards to the implementation of the requirements from this regulation, including joint training programs and on-the-job training. The joint training programs included specific training sessions for the municipalities and the ministries to evaluate NGO applications, and the organization of a training of trainers in the area of public financing of NGOs for 12 public officials from the central and local levels that was organized in cooperation with the KIPA. These training programs were conducted with the support of the Technical Assistance Project of the European Commission “Support to the Implementation of the Government Strategy for Cooperation with the Civil Society”.

We would like to use the opportunity to thank, on behalf of the Office for Good Governance / Office of the Prime Minister all public institutions for their continued cooperation and at the same time, we seek your commitment and cooperation in the future!

1.1 Methodology Used

The Office for Good Governance at the Office of the Prime Minister, as per the Regulation, has addressed a request to all budgetary organizations to prepare and submit reports on the public financing of the NGOs for 2019. The same request was addressed to the local level through the Ministry of Local Governance Administration. Having in mind that a large number of budgetary organizations failed to submit their reports in compliance with the requirements of the Regulation, the Office for Good Governance, apart from the data submitted by the organizations that reported, also used as complementary and supplementary data the database provided by the Department of the Treasury at the Ministry of Finance. Therefore, the Report on the Public Financial Support of the NGOs in 2019 has been prepared based on data obtained by the budgetary organizations and the Ministry of Finance. The data were provided by the Treasury and include all payments executed within the period of 1 January - 31 December of the respective years an all suppliers registered with the Treasury as Non-Governmental Organizations.

Having in mind that the data provided by the Ministry of Finance are based on payments and not on projects or programs financed, for the preparation of this report such data are processed in such a way that if an NGO has received various amounts of money within a year from the same institution or from different departments of the same institution, they are collated and presented as a single financial amount for the same NGO within the respective year. This information is presented in the attached annexes of this report. Although amounts higher than the ones presented in the report may have been approved within different institutions compared to those presented in this report, it is so as not all approved amounts may have been executed within the fiscal year, and this is done to maintain the uniformity of the data methodology used.

Additionally, the Office for Good Governance has analyzed the web pages of the public institutions to analyze public calls, their content and the flow of the process of a public call for financing NGOs. The data from the Institutions that have reported are analyzed in a particular way and are presented in Annex II of this report. The first part of the report deal with the data from the Treasury, in order to enable a comprehensive and comparative picture with the previous years.

In preparing this report, the Office for Good Governance at the OPM was supported by the Technical Assistance Project funded by the European Union Office in Kosovo *"Support for the Implementation of the Government Strategy for Cooperation with Civil Society"* and they hold no responsibility for the accuracy of the data regarding the names of NGOs, or for the fact whether their names are registered as such with the Treasury.

2. GENERAL DATA ON THE REPORTING OF THE BUDGETARY ORGANIZATIONS

2.1 Reporting by the Budgetary Organizations

Regulation MF-No.04/2017 Kosovo has established a system of unified rules with regards to the public financing of the NGOs, and such rules determine the minimum criteria regarding the public financing. Regulation MF-No. 04/2017, apart from other obligations, determines in detail the responsibility of the public institutions on reporting on the public financing of the NGOs. Likewise, the Regulation has determined the role of the Office for Good Governance/Office of the Prime Minister within the process of preparing the comprehensive Report on the public financial support for the NGOs, which is prepared based on the reports of all public institutions. Therefore, the monitoring and reporting method for the public financial support for the NGOs as per this regulation is very well structured, including data that the annual report should contain. Based on Article 26 of the Regulation, all budgetary organizations should prepare their report the latest on 1 March for the previous fiscal year. Apart from submitting this report to the Office for Good Governance / Office of the Prime Minister, the Budgetary Organizations should publish the same report on the web page of the respective institution. The Office of the Prime Minister / Office for Good Governance is responsible for collating and publishing the comprehensive report on the public financial support to the NGOs, which should include any kind of financial support provided to the NGOs in the previous year, by all organizational units of the Budgetary Organizations in the Republic of Kosovo.

The Office for Good Governance/Office of the Prime Minister, in compliance with the requirements from the Regulation on the Criteria, Standards and Procedures of the Public Financing of the NGOs has submitted a request for reporting and has expressed its readiness to provide clarifications with regards to preparing the report. By its request for reporting, the Office for Good Governance has apprised the heads of the Budgetary Organizations that the Regulation on the Criteria, Standards and Procedures of the Public Financing of NGOs MF-Ni. 04/2017 derives from the Law on Managing Public Finances and its Responsibilities, therefore, failure to report or delayed reporting constitutes a violation of the Provisions of the Law on Managing Public Finances and its Responsibilities. The Office for Good Governance has offered its full readiness to provide its expertise and support all budgetary organizations in need to prepare the annual report.

Compared to the previous years, reporting has noticeably improved. However, this report indicates that a considerable number of budgetary organizations failed to submit their report with the Office for Good Governance at the OPM as per the requirements of the regulation within the deadlines foreseen, or failed to report whether the Budgetary Organization has financed or not any NGO projects in 2019. The Figure below indicates in percentages the number of budgetary organizations, including the Ministries and Municipalities, whether they have reported or not as per the requirements of the Regulation MF-NO-04/2017 on the Criteria, Standards and Procedures of the Public Financing of the NGOs.

Të dhëna sa i përket raportimit të komunave dhe ministrive sipas kërkesave të Rregullores MF-04/2017

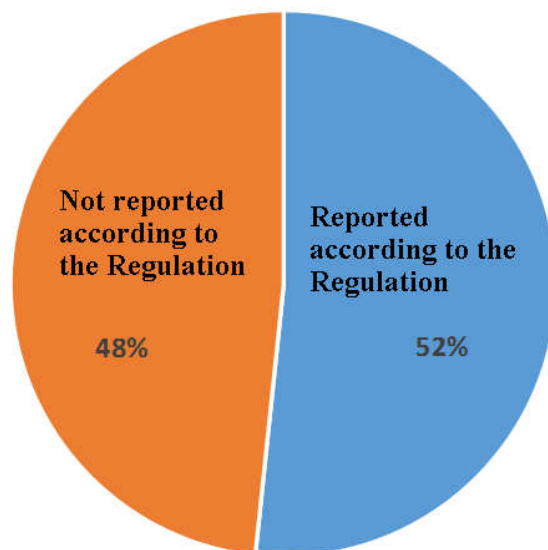

Figure 1. general Data with regards to the reporting by the budgetary organizations

2.2 Data on the Reporting of each Budgetary Organization

The Table below presents the data with regards to each budgetary organization that has been requested to report or has financed NGOs in 2019. In cases when N/A has been submitted, the OPM did not send to the budgetary organization a reporting request; however, based on the data from the Treasury it has been noted that such organization did finance NGOs in 2019.

The general data to observe the requirement for reporting by the Budgetary Organizations

NO.	NAME OF THE BUDGETARY ORGANIZATION	REPORTING TO THE OPM BASED ON THE REGULATION MF-04/2017
1.	OFFICE OF THE PRIME MINISTER	The National Coordinator for Culture submitted a report on the financing of the NGOs, whereas the other OPM offices did not submit any reports
2.	MINISTRY OF PUBLIC ADMINISTRATION	MPA emphasized it did not finance any NGO projects
3.	MINISTRY OF LOCAL GOVERNANCE ADMINISTRATION	MLGA emphasized it did not finance any NGO projects
4.	MINISTRY OF EDUCATION SCIENCE AND TECHNOLOGY	MEST submitted the report in compliance with the requirements in the regulation
5.	MINISTRY OF AGRICULTURE FORESTRY	MAFRD did not submit any report
6.	MINISTRY OF DIASPORA	MOD submitted the report in time, but it was largely

		not filled as per the requirements in the regulation
7.	MINISTRY OF JUSTICE	MOJ did not submit any report
8.	MINISTRY OF FINANCE	MOF did not submit any report
9.	MINISTRY OF KOSOVO SECURITY FORCE	MKSF did not submit any report
10.	MINISTRY OF INFRASTRUCTURE	MI did not submit any report
11.	MINISTRY OF INNOVATION AND ENTREPRENEURSHIP	MIE emphasized it did not finance any NGO projects
12.	MINISTRY OF EUROPEAN INTEGRATION	MEI did not submit any report
13.	MINISTRY OF CULTURE YOUTH AND SPORTS	MCYS did not submit any report
14.	MINISTRY OF ENVIRONMENT AND SPATIAL PLANNING	MESP did not submit any report
15.	MINISTRY OF LABOR AND SOCIAL WELFARE	MLSW submitted the report in compliance with the requirements in the regulation
16.	MINISTRY OF INTERNAL AFFAIRS	MIA did not submit any report
17.	MINISTRY OF FOREIGN AFFAIRS	MFA submitted the report in compliance with the requirements in the regulation
18.	MINISTRY OF HEALTH	MOH did not submit any report
19.	MINISTRY OF TRADE AND INDUSTRY	MTI emphasized it did not finance any NGO projects in 2019
20.	MINISTRY OF ECONOMIC DEVELOPMENT	MED did not submit any report
21.	MINISTRY OF REGIONAL DEVELOPMENT	MRD submitted the report in compliance with the requirements in the regulation
22.	MINISTRY OF RETURN AND COMMUNITIES	MRC emphasized it did not finance any NGO projects
23.	DEÇAN	Municipality of Deçan did not submit any report
24.	DRAGASH	Municipality of Dragash submitted the report in compliance with the requirements in the regulation
25.	FERIZAJ	Municipality of Ferizaj submitted the report in compliance with the requirements in the regulation
26.	FUSHË KOSOVË	Municipality of Fushë Kosovë did not submit any report
27.	GJAKOVË	Municipality of Gjakovë did not submit any report
28.	GJILAN	Municipality of Gjilan did not submit any report
29.	DRENAS	Municipality of Drenas submitted the report in compliance with the requirements in the regulation
30.	GRAÇANICË	Municipality of Graçanica submitted the report in compliance with the requirements in the regulation
31.	HANI I ELEZIT	Municipality of Hani i Elezit did not submit any report
32.	ISTOG	Municipality of Istog did not submit any report
33.	JUNIK	Municipality of Junik did not submit any report
34.	KAÇANIK	Municipality of Kaçanik did not submit any report
35.	KAMENICË	Municipality of Kamenica did not submit any report
36.	KLINË	Municipality of Klina submitted the report in compliance with the requirements in the regulation

37.	KLLOKOT	Municipality of Klllokot did not submit any report
38.	LEPOSAVIQ	Municipality of Leposaviq submitted the report in compliance with the requirements in the regulation
39.	LIPJAN	Municipality of Lipjan did not submit any report
40.	MALISHEVË	Municipality of Malishevë did not submit any report
41.	MAMUSHË	Municipality of Mamushë submitted the report in compliance with the requirements in the regulation
42.	MITROVICA VERI	Municipality of Mitrovica Veriore did not submit any report
43.	MITROVICË	Municipality of Mitrovica submitted the report in compliance with the requirements in the regulation
44.	NOVO BËRD	Municipality of Novo Bërdë did not submit any report
45.	OBILIQ	Municipality of Obiliq submitted the report in compliance with the requirements in the regulation
46.	PARTESH	Municipality of Partesh did not submit any report
47.	PEJË	Municipality of Pejës did not submit any report
48.	PODUJEVË	Municipality of Podujevës did not submit any report
49.	PRISHTINË	Municipality of Prishtina submitted the report largely in compliance with the requirements in the regulation
50.	PRIZREN	Municipality of Prizren submitted the report, yet a large part of information was not filled in compliance with the requirements in the regulation
51.	RAHOVEC	Municipality of Rahovec submitted the report in compliance with the requirements in the regulation
52.	RANILLUG	Municipality of Ranillug did not submit any report
53.	SHTËRPECË	Municipality of Shtërpcë emphasizes it did not finance any NGO in 2019
54.	SHTIME	Municipality of Shtime submitted the report in compliance with the requirements in the regulation
55.	SKENDERAJ	Municipality of Skenderaj submitted the report in compliance with the requirements in the regulation
56.	SUHAREKË	Municipality of Suhareka did not submit any report
57.	VITI	Municipality of Viti did not submit any report
58.	VUSHTRRI	Municipality of Vushtrri did not submit any report
59.	ZUBIN POTOK	Municipality of Zubin Potok did not submit any report
60.	ZVEÇAN	Municipality of Zveçan submitted the report in compliance with the requirements in the regulation
61.	OFFICE OF THE PRESIDENT	N/A
62.	THE ASSEMBLY	N/A
63.	AGENCY OF AIR NAVIGATION SERVICES	N/A
64.	KOSOVO PRIVATIZATION AGENCY	N/A
65.	AGENCY FOR THE MANAGEMENT OF MEMORIAL COMPLEXES	N/A

77.	CENTRAL ELECTIONS COMMISSION	N/A
78.	REGULATIVE COMMISSION OF PUBLIC PROCUREMENT	N/A
79.	UNIVERSITY CLINICAL HOSPITAL CENTER OF KOSOVO	N/A
80.	UNIVERSITY OF PRISHTINA	N/A
81.	NATIONAL OFFICE OF THE AUDITOR	N/A

3. GENERAL DATA ON THE PUBLIC FINANCIAL SUPPORT FOR THE NGOs AT MINISTRY, MUNICIPAL AND OTHER INDEPENDENT AGENCIES LEVEL

Based on the data collected and processed on the public financing of NGOs in 2019, we can establish that the cooperation with non-governmental organizations in achieving government priorities in various areas continued in 2019. The data show that many institutions increased financing quotas for the NGOs.

In 2019, central and local level institutions continued to support projects and activities of the non-governmental organizations, including financing of specific projects or direct support to NGOs and their projects.

Based on the financial data obtained in 2019 it results that the public financial support for the NGOs by the public institutions, including the Assembly, the Presidency, the Office of the Prime Minister, Ministries, Independent Agencies and Municipalities is some €21 million.

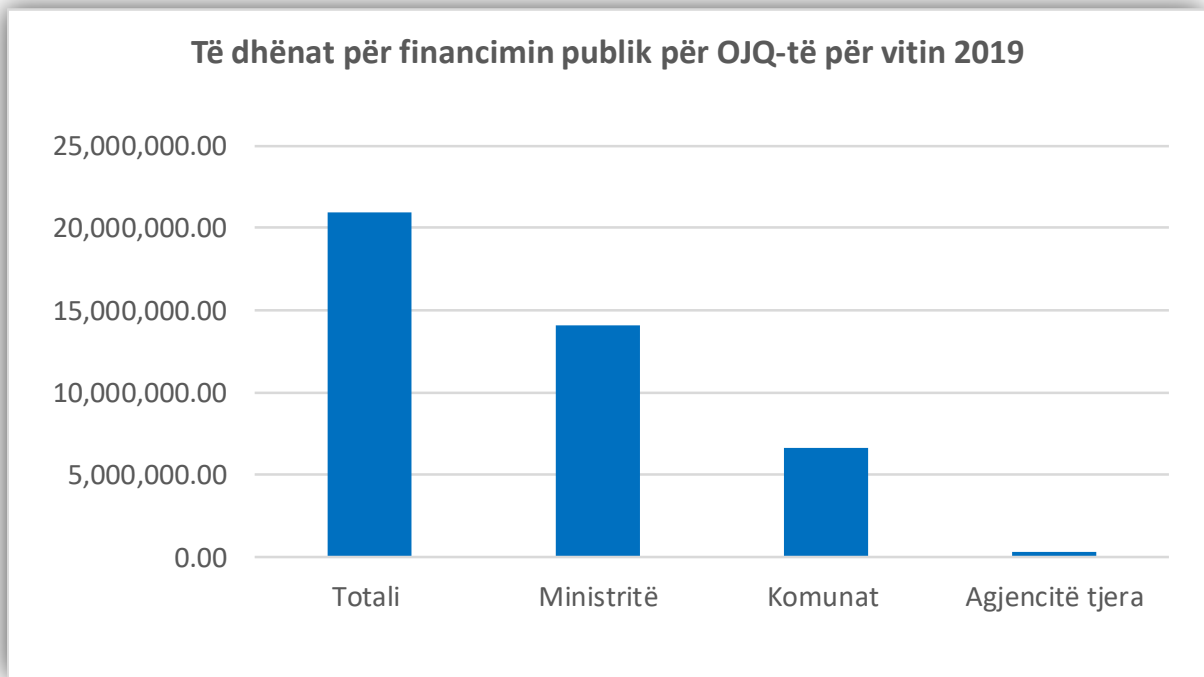

Figure 2. Data on the public financing of the NGOs for 2019

If we compare the public financing in 2018 and 2019 we can notice a decrease of financing of some €1.5 million overall. We notice a decrease of public financing for NGOs in the municipal level of the Republic of Kosovo. The figure below represents a comparison of the data on public financial support for the GOs in Kosovo in 2018-2019 for all budgetary organizations, broken down by ministries, municipalities and other agencies:

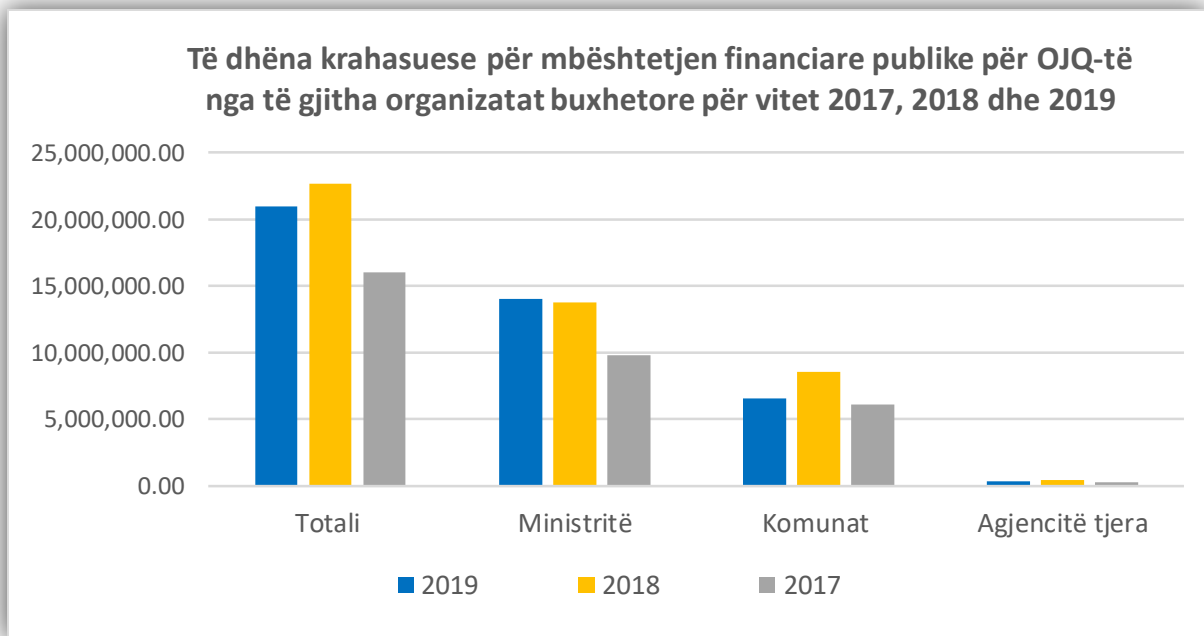

Figure 3. Comparative data for public financing for NGOs in 2018-2019

In 2019 we noted a decrease in the number of beneficiary NGOs compared to 2018. This decrease of the overall number of beneficiary NGOs is observed both at the central and municipal level.

In 2019, 548 non-governmental organizations received financial support at the ministry level, while in 2018 the number of beneficiary NGOs was 793. These data show that in 2019 at the ministry level we have a decrease in the number of NGOs that benefitted from the public financial support by some 240 NGOs, compared to 2018.

The situation is almost similar at the municipal level. Even within municipalities, there is a decrease in the number of beneficiary NGOs. At the municipal level, the number of beneficiary NGOs is higher than at the ministry level. In 2019, a total of 760 NGOs benefitted from the budget of all municipalities, compared to 1,023 NGOs in 2018. So, there are about 260 NGOs less that benefitted compared to 2018. The presented data represent any form of financial support to the suppliers registered with the Treasury as Non-Governmental Organizations. This number constitutes the number of NGOs that received funds from Budgetary Organizations. However, the same organizations have often benefitted from more than one Budgetary Organization.

In the framework of other agencies, which mainly report to the Assembly, the number of beneficiary NGOs does not change much from 2018. In 2019, 45 NGOs received public financial support compared to 46 beneficiary NGOs in 2018.

The following figure comparatively presents the number of beneficiaries of public financial support from ministries, municipalities and other agencies for the years 2018-2019

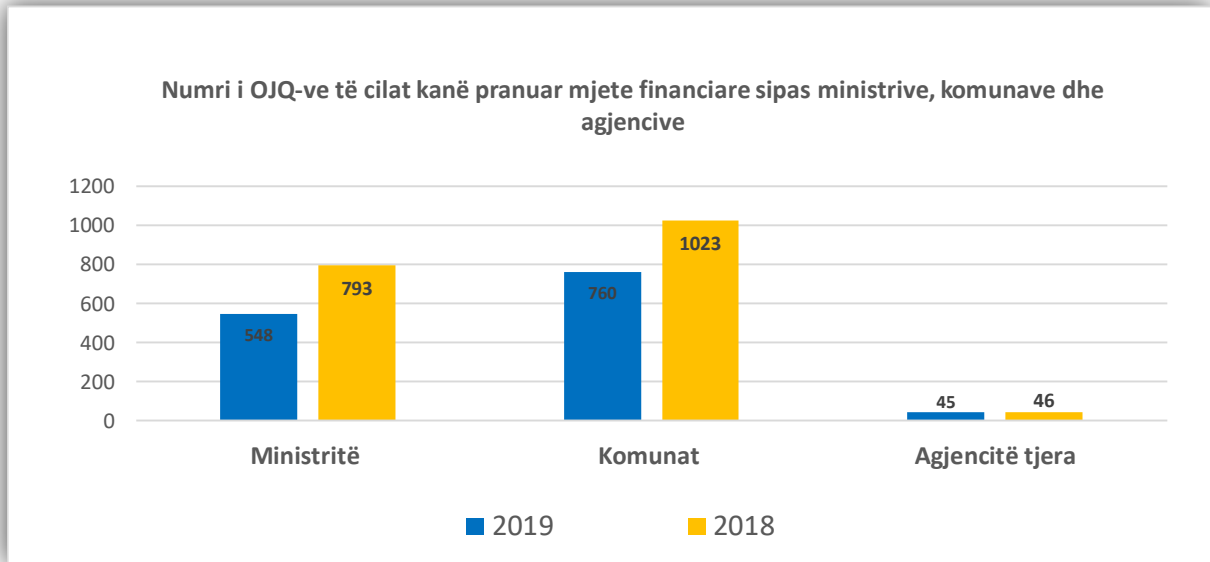

Figure 4. Number of NGOs that received financial means by budgetary organizations in 2018-2019

4. DATA ON THE PUBLIC FINANCIAL SUPPORT FOR NGOs BY MINISTRIES, MUNICIPALITIES AND OTHER AGENCIES

4.1 General data on the Public Financing of NGOs for 2019 by budgetary organizations

The table below includes the Budgetary Organizations which in 2019, based on the data by the Treasury of the Ministry of Finance, executed payments to any suppliers, which are registered as NGOs in the Treasury data. The amount includes all payment made in the fiscal year, from 1 January until 31 December 2019. These data are linked with the payments, presented in the annexes of this report, including the list of beneficiaries.

NO.	NAME OF THE BUDGETARY ORGANIZATION	THE AMOUNT OF PAYMENTS BY THE ORGANIZATION TO THE OPERATORS REGISTERED WITH THE TREASURE AS NGOs IN 2019
1.	OFFICE OF THE PRIME MINISTER	516,465

4.2 Financial Support for the NGOs under the auspices of the Ministries

The data presented further indicate the amount of the public financial support for the NGOs according to the respective ministries, provided in 2019, which is then compared with the previous year, 2018. If we analyze the data of the public financial support, we may establish that with regards to the amount of the financial support, the institutions that have supported the most NGO projects are: the Ministry of Culture Youth and Sports, the Office of the Prime Minister, the Ministry of Labor and Social Welfare, the Ministry for Communities and Returns, the Ministry of Education, the Ministry of Economic Development, the Ministry of Environment and Spatial Planning, etc.

Although in general it can be noted that at the ministry level there is an increased public financial support for the NGOs, it must be emphasized that in most ministries separately there is a decrease of the public financial support. Increase compared to 2018 is noted only with the Ministry of Education Science and Technology, Ministry of Justice, Ministry of Environment and Spatial Planning, Ministry of Economic Development and the Ministry for Communities and Returns. It must be emphasized that under the auspices of the Ministry of Economic Development we note a pronounced increase of the support. However, this support has gone to one non-governmental organization, apparently to implement capital projects co-financed by the donors.

Figure 5 below represent graphically data for the public financial support for the NGOs at the ministry, Office of the Prime Minister and Office of the President level for 2019, compared with the previous year 2018.

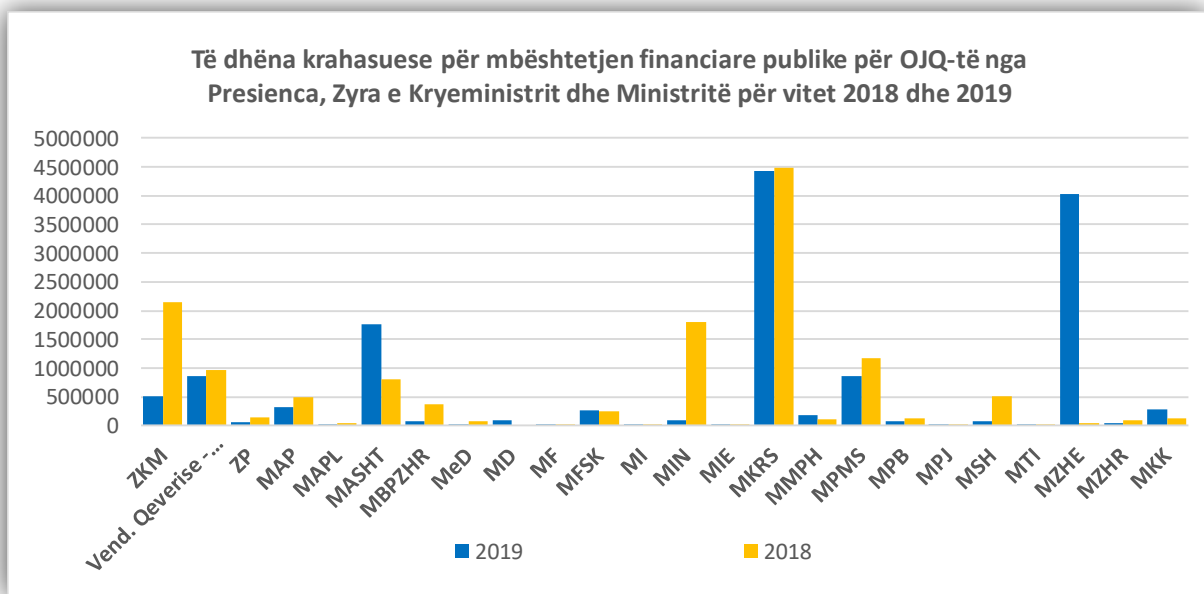

Figure 5. The amount of public financial support at the ministry level 2018-2019

4.2.1 Purpose of the financial support by the ministries

The Office for Good Governance has addressed all ministries to report on the public financial support for the NGOs in 2019. Apart from the request, the Office for Good Governance has submitted the standard reporting forms. Some half of the ministries have reported in the required template. The Office for Good Governance analyzed all received reports. Furthermore, the Office for Good Governance at the Office of the Prime Minister analyzed all data from the Treasury and the extent to which those data permitted analysis and extracted the data below, which are approximate, and represented in the total percentage of the financing at ministry level.

It should be kept in mind that the grouping was done based on the reporting form, even for cases when the data were reported by the budgetary organizations, but were extracted instead by the data in the Treasury.

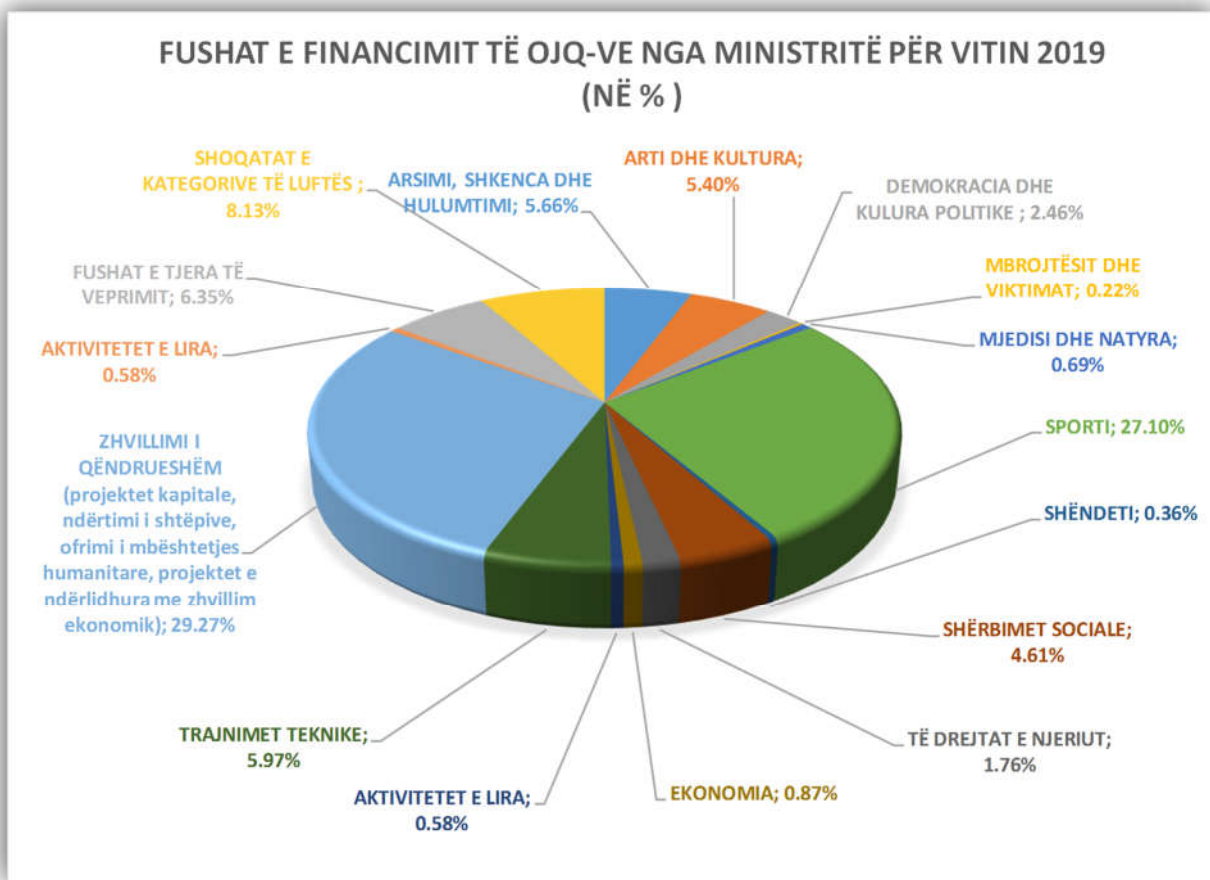

Figure 6. The areas of financing for NGO projects by the ministries in 2019 in approximate % of financing

Based on the above data it can be seen that the areas that have received the most funding from central level institutions are sports, including Sport Federations, but also sports clubs directly. In addition, the Sustainable Development section mainly includes capital projects, building of houses, and support for repatriated persons, co-financing of capital projects with donors, etc., which were implemented in cooperation or through NGOs. Also, a significant portion of financial resources have gone to NGOs that provide training/education, including professional training provided by various NGOs such as the American University, or other organizations that provide e.g. training in the field of accounting, as well as training related to the labor market. Significant support has gone to NGOs representing associations of war-emerged categories

With the purpose of informing the public, the Office for Good Governance has analyzed the reported data and data from all payments made by these institutions and on the basis of those basic data available it can be concluded that most Ministries have supported NGOs within their area of responsibility and priorities. However, there are also cases of financial support for NGOs, where support is not directly related to the area of responsibility the of institutions that provided that financial support.

Having in mind that based on available data it is difficult to distinguish between projects and programs that were financed and direct support or contracting for the provision of services or purchase by the NGOs, these data include contracted services, even education, training, etc., provided by organizations registered as non-governmental organizations. For example, many of the central institutions have paid for the services that were paid for training, such as the American University in Kosovo, which is registered as a non-governmental organization. Also, training in the field of accounting and auditing is included, as the organizations that have provided those are registered as non-governmental organizations.

4.2.2 Number of NGOs that benefitted from the ministry financing and breakdown by amount of financial support

Figure 7 below presents the number of beneficiary NGOs under the auspices of the Office of the Prime Minister, ministries and the Office of the President. The data below are processed in such manner that although in most cases the NGOs have received payments more than one from the same institution, the figure below presents data processed for the number of beneficiaries under the auspices of each ministry, meaning that even in cases when an NGO has benefitted more than once within the year, for purposes of the report it is considered as one beneficiary NGO. This means that as far as the amount is concerned, it may have received support for more than one project within the year. Likewise, in many cases it was established that often, payments for the NGOs were made from various economic codes within the same budgetary organization, which points to improper planning on the part of the Budgetary Organizations. The data below, with regards to the number of beneficiary NGOs, were based on the data from the Treasury.

From Figure 7 it is noticeable that the largest number of the beneficiary organizations are under the auspices of the Ministry of Culture Youth and Sports, Ministry of Labor and Social Welfare, Office of the Prime Minister, Ministry of Education Science and Technology, Ministry of Agriculture, Ministry of Health, and Ministry of Diaspora. NGOs have benefitted mostly from the Ministry of Culture Youth and Sports, there were 252 such NGOs, which compared to the year before we have a halved down number of NGOs benefitting from this ministry. The number of beneficiary NGOs has decreased even under the auspices of the Office of the Prime Minister.

Therefore, from the public financial support for the NGOs offered at ministry level, in 2019 a total of 548 non-governmental organizations benefitted financial support, or 245 NGOs fewer than the beneficiary NGOs in 2018. Based on an analysis of data obtained, it can be seen that the majority of the NGOs that benefitted financial support in 2018, received support in the previous years by the same institutions. The following figure represents the number of beneficiary NGOs of the public funds for 2019 by each ministry, including the Office of the Prime Minister and the Office of the President. It must be emphasized that some of the beneficiaries have benefitted in accordance with the decisions made by the Government of the Republic of Kosovo, and the money has been executed by the State Reserves, from the Code of the State Reserves in the Treasury. For comparison purposes, we have included the data on the number of beneficiaries from the previous year for each of the ministries and other institutions.

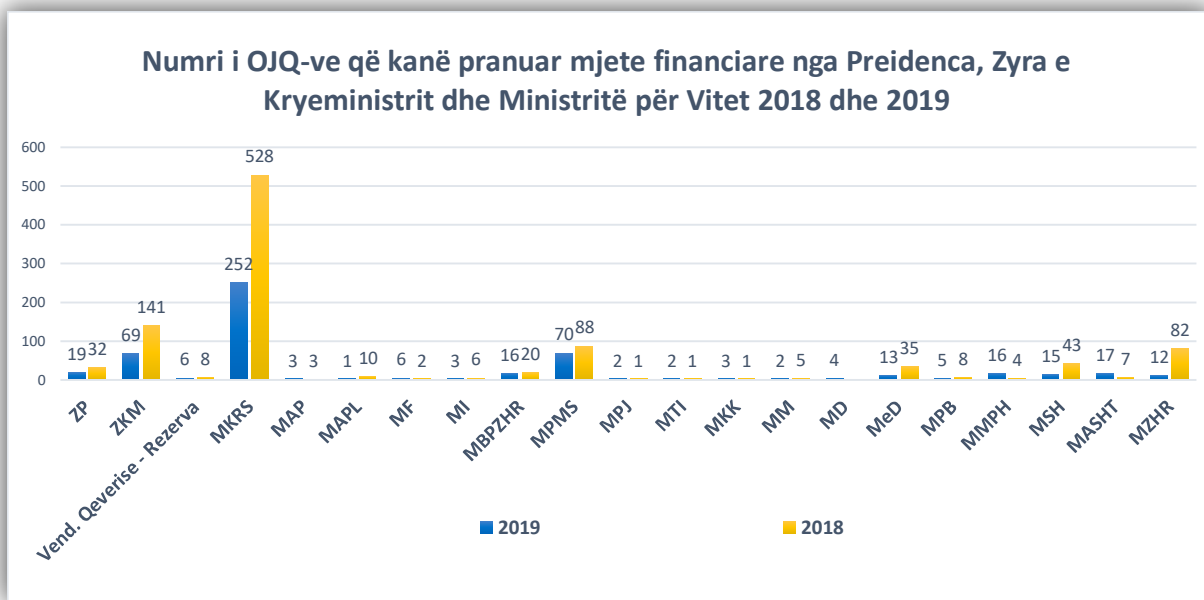

Figure 7. Number of beneficiary NGOs by ministries in 2018-2019

Data on the number of beneficiaries in 2019 is presented as a table, below, ranked by institution that have mostly supported the NGOs:

NO.	NAME OF THE SUPPORT PROVIDER	NO. OF BENEFICIARY NGOs
1	MINISTRY OF CULTURE YOUTH AND SPORT	252
2	MINISTRY OF LABOR AND SOCIAL WELFARE	70
3	OFFICE OF THE PRIME MINISTER	69
4	OFFICE OF THE PRESIDENT	19
5	MINISTRY OF EDUCATION SCIENCE AND TECHNOLOGY	17
6	MINISTRY OF AGRICULTURE FORESTRY AND RURAL DEVELOPMENT	16
7	MINISTRY OF ENVIRONMENT AND SPATIAL PLANNING	16
8	MINISTRY OF HEALTH	15
9	MINISTRY OF DIASPORA	13
10	MINISTRY OF FINANCE	12
11	MINISTRY OF REGIONAL DEVELOPMENT	12
12	MINISTRY OF ECONOMIC DEVELOPMENT	9
13	MINISTRY OF INTERNAL AFFAIRS	5
14	MINISTRY OF JUSTICE	4
15	MINISTRY OF PUBLIC ADMINISTRATION	3
16	MINISTRY OF INFRASTRUCTURE	3
17	MINISTRY FOR COMMUNITIES AND RETURNS	3
18	MINISTRY OF DEFENSE	2
19	MINISTRY OF FOREIGN AFFAIRS	2

20	MINISTRY OF TRADE AND INDUSTRY	2
21	MINISTRY OF INNOVATION AND ENTREPRENEURSHIP	2
22	MINISTRY OF LOCAL GOVERNANCE ADMINISTRATION	1
23	MINISTRY OF EUROPEAN INTEGRATION	1
Total of beneficiary NGOs		548

Based on the analysis of processed data on public financial support for NGOs provided by the Ministries of the Government of the Republic of Kosovo we can see that there is a trend similar to the previous year in terms of the number of NGOs according to the amounts benefited by public institutions. Although these amounts are cumulative by all ministries (the total amount of financing relates to any entry for the same NGO, from any central level institution), it is noted that compared to previous years we have a trend of the amount benefited by the NGOs. Given that we have a general decrease in the number of beneficiary NGOs, we have a decrease in the number of NGOs that benefited by financial means in almost every of the amounts below.

The following figure presents in a graph the data regarding the number of beneficiary NGOs by respective amounts.

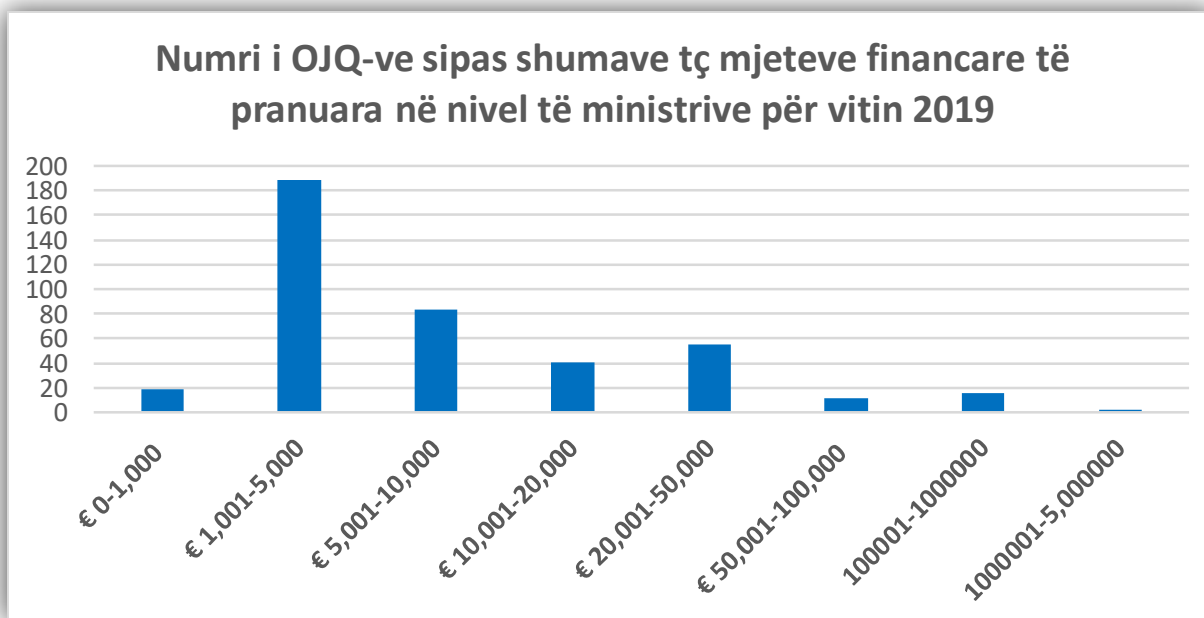

Figure 8. Number of beneficiary NGOs by specific amounts under the auspices of the ministries

4.2.3 An analysis of the public calls at ministry level

While preparing this report an analysis was conducted of some of the institutions that provided the most public financial support to NGOs, whose activity relates to the ongoing support of the Civil Society. A general analysis of these institutions demonstrates that public calls advanced in 2019, marking an undisputed progress in the preparation of public calls, their publication and selection of applicants.

The public call of the Ministry of Diaspora ¹, launched in March 2019 was analyzed in accordance with the criteria of Regulation Mf-04/2017, to see whether its basic criteria regarding public calls were met. On the analysis it can be concluded that:

- The call was in line with the scope of the ministry,
- Priorities of the public call were defined;
- The minimal and maximal amounts were defined, but not the approximate number of beneficiaries;
- Timelines were defined;
- Criteria for the evaluation of applications were defined;
- Instruction for application were provided.

The Ministry has submitted the Annual Report in accordance with the requirements of the regulation to the Office of the Prime Minister. It should publish the same on its website.

Under the auspices of the Ministry of Culture, Youth and Sports, some public calls announced in 2019 were analyzed.² The Ministry launched several public calls in various areas of priority, having in mind the broad scope of the MCYS.³ Of these public calls we can ascertain that:

- The calls were in line with the scope of the ministry,
- Priorities of the public call were defined;
- The minimal and maximal amounts were defined, but not the approximate number of beneficiaries;
- Timelines were defined;
- Criteria for the evaluation of applications were defined;
- Instruction for application were provided
- Beneficiary lists were published⁴

The Ministry of Culture should continue to build its capacities on reporting, as it has continuously failed to prepare the annual reports and submit those in time with the Office of the Prime Minister.

The Ministry of Labor and Social Welfare has launched several public calls to finance NGO projects. In particular we analyzed the public call to provide financial support to NGO/licensed shelter projects in the area of social services⁵ and from said analysis we may ascertain that:

¹ See: <https://mdis.rks-gov.net/thirrje-publike-per-mbeshitetje-financiare-per-ojq-te/>

² See: <https://www.mkrs-ks.org/repository/docs/ThirrjePublike.zip>

³ You may access the public calls in this link, along the documents published by the Ministry: <https://www.mkrs-ks.org/?page=1,114>

⁴ See: <https://www.mkrs-ks.org/repository/docs/2116-03.pdf>; See: <https://www.mkrs-ks.org/repository/docs/3839-2.pdf>; shih: https://www.mkrs-ks.org/repository/docs/Lista_e_perfitueseve_p%C3%ABr_projektet_e_OJQ-ve_-_DTK_2019.pdf

- The call was in line with the scope of the ministry,
- Priorities of the public call were defined in line with the strategic documents of the institution;
- The minimal and maximal amounts were defined, but not the approximate number of beneficiaries;
- Timelines were defined both for application and the entire process;
- Criteria for the evaluation of applications were defined;
- Instruction for application were provided
- Beneficiary lists were published
- Announcements for the selection of external committee members were published too

The Ministry has submitted with the Office of the Prime Minister the annual report in compliance with the requirements of the regulation. The same should be published on its website.

4.3 Support under the auspices of the MUNICIPALITIES

⁵ See: <https://mpms.rks-gov.net/wpdm-package/thirrje-publike-per-mbeshtetje-financiare-publike-per-projektet-e-ojq-ve-strehimoreve-te-licencuara-ne-fushen-e-sheerbimeve-sociale/>

In 2019, Kosovo had a total of 38 municipalities, which are budgetary organizations pursuant to the Law on the Management of Public Finances. Of these 38 municipalities, 36 provided public financial support to the non-governmental organizations in 2019. Data indicate that in 2019 the Municipalities transferred a total of €6,591,115 to the accounts of the non-governmental organizations. If we make a comparison with the amount of the public financing for NGO projects by the municipalities in 2019 with those of 2018, we note a decrease of financing of non-governmental organizations at the municipal level by some €2 million in 2019. The Figure below represents the public financial support by each of the municipalities for 2019, making comparisons with the previous year.

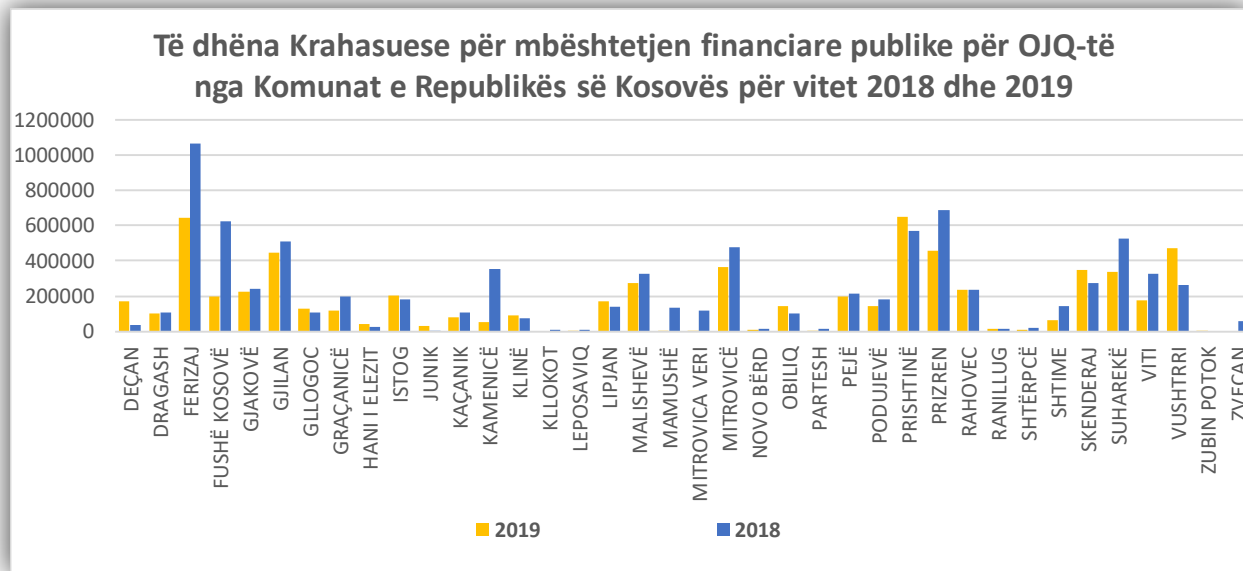

Figure 9. Public financial support for the NGOs by municipalities 2018-2019

4.3.1 The purpose of the financial support provided by the municipalities

The Office for Good Governance addressed all Municipalities via the Ministry of Local Government Administration to report on public financial support for NGOs in 2019. In addition to the request, the Office for Good Governance forwarded the standard reporting forms. Of 38 municipalities, 20 failed to submit their reports with the Office for Good Governance within the deadline envisaged by the regulation. Some municipalities that have reported failed to submit the form filling in all required areas. Consequently, this made it difficult to understand the areas of financing and the purpose. The Office for Good Governance analyzed all received reports. Furthermore, the Office for Good Governance at the Office of the Prime Minister also analyzed the data from the Treasury, and to the extent that such data permitted, the analysis yielded the following data, which are approximate, and present in percentage the total funding at the ministry level.

We should keep in mind that the grouping was done based on the reporting form, even for cases when the budgetary organizations did not report the data, which were extracted from the treasury data instead.

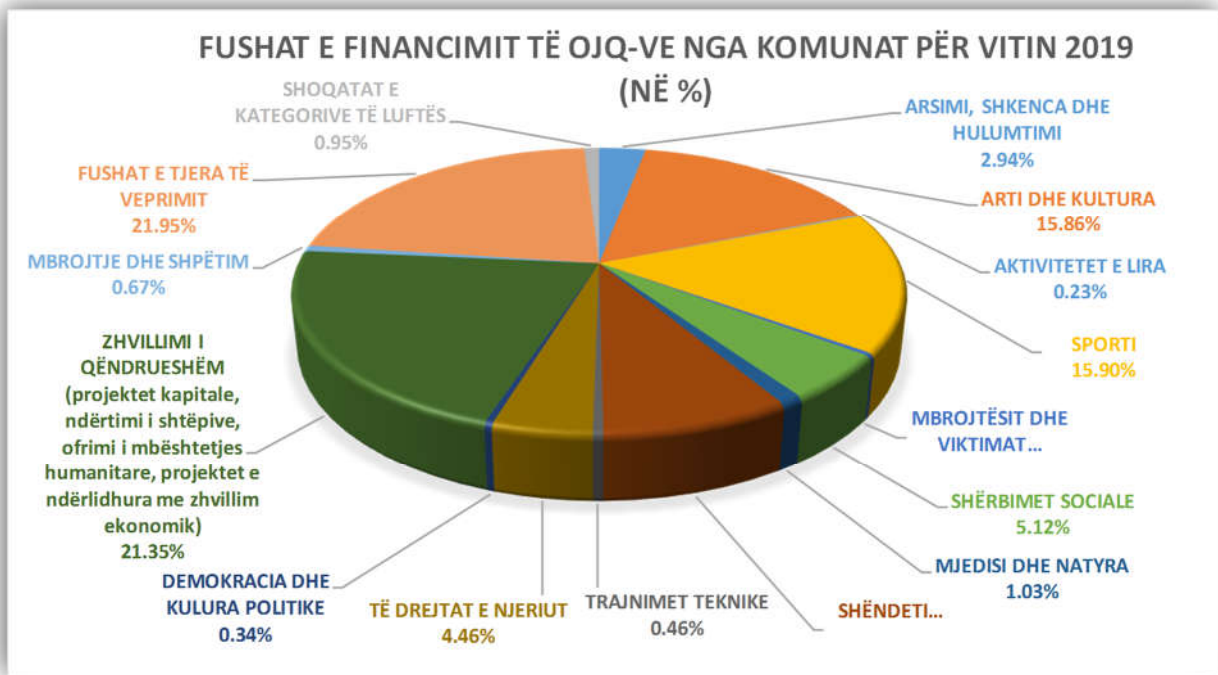

Figure 10. Areas of financing NGO projects by the Municipalities in 2019 in approximate % of financing

The Office for Good Governance at the OPM, based on the requirements of the regulation MF-No. 04/2017, has asked each municipality via the Ministry of Local Government Administration to report on the public financial support they have provided in 2019. Despite the notice of legal requirements and the request to publish and submit to the Office of the Prime Minister the reports according to the requirements of the Regulation not all municipalities reported in the required template, according to the regulation MF-No. 04/2017. Twenty municipalities failed to submit reports in accordance with the requirements of the regulation MF-No. 04/2017, while the other municipalities reported in the standard form of reporting.

In addition to the data reported by the municipalities, the Office for Good Governance analyzed the data from the Treasury of the Ministry of Finance, and the websites of the municipalities to compile a comprehensive report on the public financial support for NGOs. By the analyzed data we notice an improvement of the implementation of the regulation regarding the opening of public calls mainly at the municipal level. This is a serious improvement compared to previous periods and almost every municipality that provided financial support to NGOs in 2019 has launched public calls. However, we also have cases of direct financial support provision.

With regards to the purpose of financial support, it mainly relates to sports, culture, support for NGOs which promote local development, etc. A significant number of public financial support for NGOs has gone to capital projects or projects co-financed by donors, categories in need, e.g. building houses for categories in need. A considerable amount of funds was provided to NGOs providing health and social services.

In 2019 too, based on an analysis of available and reported data, it is noticed that municipalities mainly supported non-governmental organizations operating at a municipal level, i.e. within the territory of the municipality providing support. However, some non-governmental organizations operating in a larger number of municipalities have benefited from more than one municipality within the Republic of Kosovo. Some of the municipalities also financed NGOs operating throughout the territory of the Republic of Kosovo, in particular NGOs dealing with sports and those that aim to support certain social groups in need, including people with special needs, NGOs providing health services, NGOs implementing projects co-financed by donors, etc. In this respect no change from the previous year is observed.

Although many municipalities failed to report, the analysis of the data published on their websites indicates that they launched public calls as per the requirements of the regulation. This means that the regulation has been implemented throughout the territory of the Republic of Kosovo. However, work remains to be done to improve public calls and the process of selecting beneficiaries of public funds.

The Office for Good Governance Office has analyzed the public calls of some of the Municipalities that have provided larger financial support both in terms of the amount and number of beneficiaries and noted that there is a significant improvement in them, but there are still challenges and room for improvement of the application of the regulation provisions.

4.3.2 An analysis of the public calls at Municipal level

While preparing this report, public calls launched by a large number of municipalities were analyzed. A general analysis of these institutions reveals that public calls have advanced in 2019, marking an undisputed progress in the preparation of public calls, their publication and selection of applicants. Municipalities have mainly supported projects within the scope of their activity. compared to previous years, one can clearly see an improvement in the preparation of public calls, and in the progress of the overall smooth process of public financing of NGOs. Below is a summary of the evaluation of public calls in some municipalities.

Municipality of Prishtina, is one of the municipalities on the top regarding public financial support. Through an analysis of public calls launched by the Municipality of Prishtina in 2019, we note a visible improvement in their content and the application of the criteria in the Regulation Mf-04/2017. ⁶

- The calls are in line with the scope of the municipality,
- The priorities of the public call are defined, as are the priority areas, and activities to be supported through the public calls;
- The minimal and maximal amount were defined but not all calls define the number of beneficiaries;

⁶ See: <https://www.prishtinaonline.com/drejtore/mireqenia-sociale/subvencionet>; see: <https://www.prishtinaonline.com/kerkimi/2349/thirrje-publike-per-ofrimin-e-mbeshitetjes-financiare-publike-per-financimin-e-projekt-propozimeve-te-individeve-klubeve-shoqatave-dhe-ojq-ve-per-organizimin-e-aktiviteteve-sportive-dhe-rinore-ne-komunen-e-prishtines-faza-e-dyte>;

- Conditions for application are defined, including the deadlines and method of application. Unlike other municipalities, the Municipality of Prishtina has established an online application system.
- Instructions for application were provided, including all necessary forms;
- Public calls were opened with regards to the appointment of external evaluation committee members;
- The preliminary and final results were published on the Municipality's web page;
- Criteria for the evaluation of the applications by the regulation were defined;
- Lists of beneficiaries were published;
- The call should clearly define the approximate number of beneficiary NGOs and not leave the entire process to the decision making of the committee, therefore the municipality should reflect in this respect;
- The biggest difference between the minimal and maximal amount for a project should not be too much. If necessary, it is recommended that the launch is divided into priority areas and indicate per each area the minimal and maximal amount, and which would be the total financing amount for each priority area. This would enable fair competition between application in the framework of defined priority areas.

The Municipality of Prishtina has submitted the report for the public financing of the NGOs in 2019. It is still a challenge for this report to be compiled in compliance with the requirements in the regulation, as many required areas lack the necessary data.

The Municipality of Gjilan has provided public financial support to the NGOs in 2019. In 2019 several public calls were launched, which were analyzed in the course of compiling this report. Based on their analysis, it is noted that the municipality has observed to a large extent the criteria in the regulation. The public calls were made accessible online via the municipality's web page.⁷

- The calls are in line with the scope of the municipality,
- The priorities of the public call are defined, as are the priority areas, and activities to be supported through the public calls. However greater linking between strategic documents and municipal policies should have been made;
- The minimal and maximal amount were defined but not all calls define the number of beneficiaries;
- Conditions for application are defined, including the deadlines and method of application.
- Instructions for application were provided, including all necessary forms;
- Criteria for the evaluation of the applications by the regulation were defined;
- Lists of beneficiaries were published;

The Municipality of Gjilan did not submit the report to the Office of the Prime Minister, as would be in compliance with the regulation of the Ministry of Finance.

⁷ See: <https://kk.rks-gov.net/gjilan/wp-content/uploads/sites/11/2019/04/THIRJA-PUBLIKE-PER-2019.docx>; See: <https://kk.rks-gov.net/gjilan/wp-content/uploads/sites/11/2019/03/Thirrje-Publike-nr.-prot.-29847.pdf>; See: <https://kk.rks-gov.net/gjilan/wp-content/uploads/sites/11/2019/03/Vendim-per-shpalljen-e-thirrjes-publike-nr.-prot.-29905.pdf>; See: <https://kk.rks-gov.net/gjilan/wp-content/uploads/sites/11/2019/01/THIRJA-aktivitete-e-Janarit-dhe-Shkurtit-2.docx>.

Municipality of Mitrovica, in 2019 opened several public calls related to financing NGO projects. Based on these public calls it is noted that they largely observed the requirements of the regulation of the Ministry of Finance MF-04/2017. The public calls were accessible online via the municipality web page and at the same time, the documents necessary for application were provided.⁸

- The calls are in line with the scope of the municipality,
- The priorities of the public call are defined, as are the priority areas, and activities to be supported through the public calls;
- The minimal and maximal amount were defined but not all calls define the number of beneficiaries;
- Conditions for application are defined, including the deadlines and method of application.
- Instructions for application were provided, including all necessary forms;
- Criteria for the evaluation of the applications by the regulation were defined;
- Lists of beneficiaries were published

The Municipality of Mitrovica submitted the report on the public financing of NGOs for 2019 in compliance with the criteria determined by the regulation of the MF MF-04/2017.

4.3.3 Number of NGOs benefitting from municipality financing and breakdown by amounts of the financial support

Even in 2019, at the municipal level in the Republic of Kosovo, a significant number of non-governmental organizations, a total of 760 NGOs, were supported. Compared to the previous year 2018, there is a significant decrease in the total number of non-governmental organizations that received financial support for their projects by municipalities with about fewer 263 NGOs. Beneficiaries of public financial support are a large number of NGOs that benefited in the previous year too. The following figure shows by a graph the number of NGOs that benefited in each of the municipalities in 2019. In order to compare with the previous year, the data for financing in 2018 are included.

⁸ See: <https://kk.rks-gov.net/mitroviccejugut/wp-content/uploads/sites/18/2019/06/20190626094446295.pdf>; See: <https://kk.rks-gov.net/mitroviccejugut/wp-content/uploads/sites/18/2019/06/20190626091050284.pdf>; See: <https://kk.rks-gov.net/mitroviccejugut/wp-content/uploads/sites/18/2019/05/thirrje-publike.pdf>; See: <https://kk.rks-gov.net/mitroviccejugut/wp-content/uploads/sites/18/2019/04/tthh.pdf>

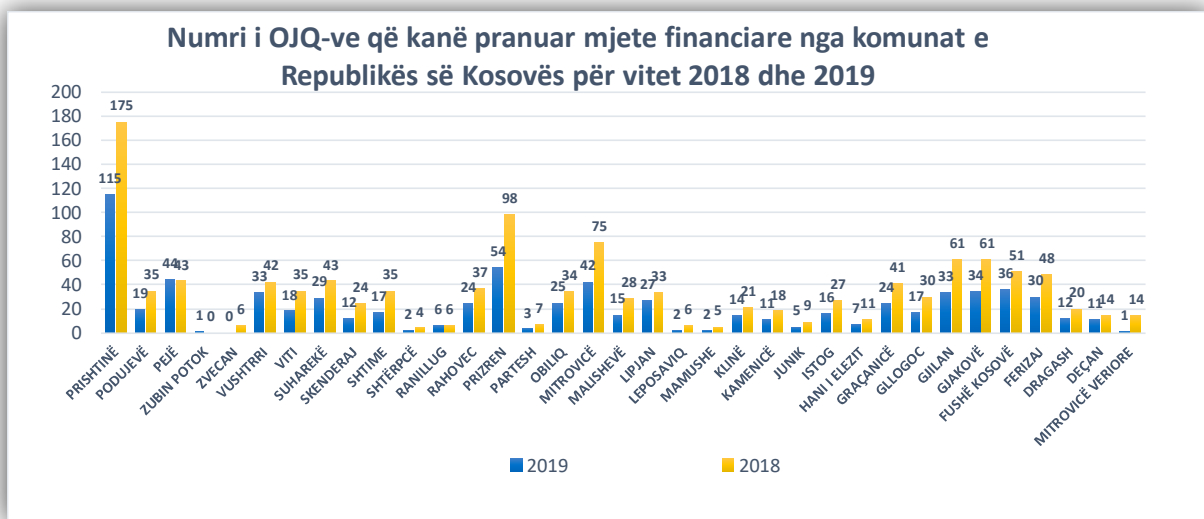

Figure 9. Number of beneficiary NGOs by municipality for 2018-2019

Data on the number of beneficiary NGOs by each of the Municipalities in the Republic of Kosovo are presented in the table below.

NO.	NAME OF THE SUPPORT PROVIDER	NO. OF BENEFICIARY NGOs
1	PRISHTINË	115
2	PRIZREN	54
3	PEJË	44
4	MITROVICË	42

34	SHTËRPCË	2
35	MITROVICA VERIORE	1
36	ZUBIN POTOK	1
TOTAL NO. OF BENEFICIARY NGOS		760

As at the central level, most NGOs have benefited amounts up to €5,000. Data show that the larger the amount of the financial support, the smaller the number of beneficiary NGOs. The data show that the number of beneficiary NGOs with amounts up to €5,000 has decreased significantly compared to 2018. This is also observed in amounts up to €10,000. These data are presented in the figure below.

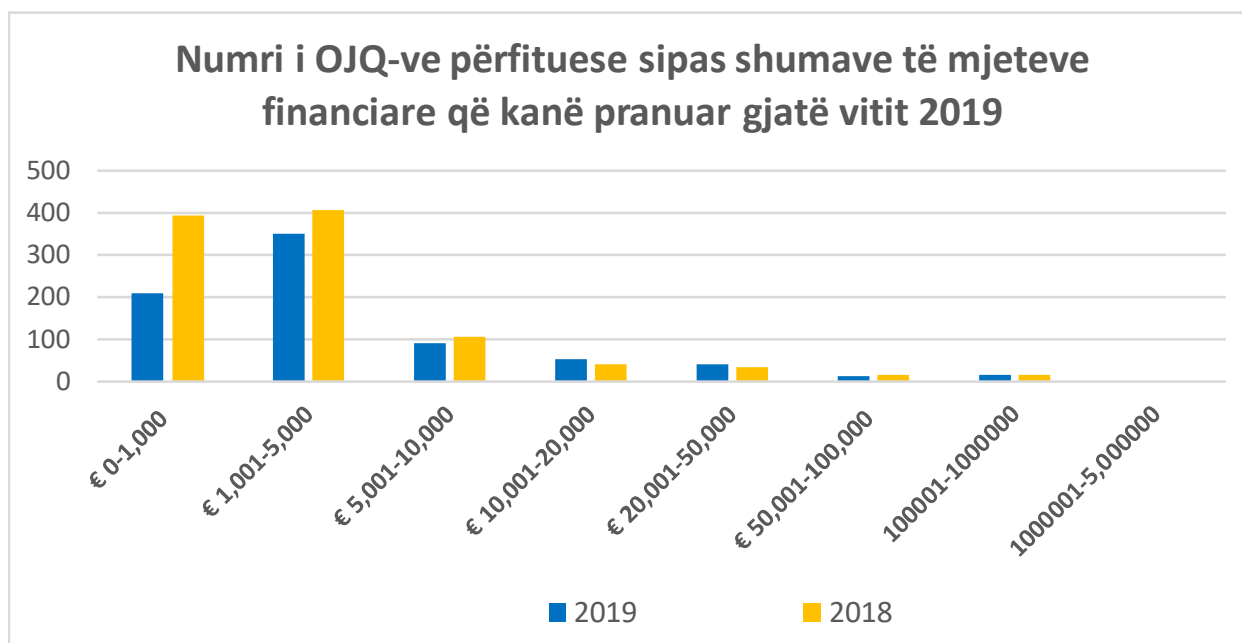

Figure 10. Number of beneficiary NGOs under the auspices of municipalities by specific amounts

4.4 Public financial support by independent agencies and other public institutions

The Assembly of the Republic of Kosovo and the Independent Agencies also have provided in 2019 financial support for NGO projects or have received services by the NGOs. In 2019 the amount transferred by these institutions to the NGOs was €314,246.000, which compared to the previous year is some €100,00 less. Even in 2019, the NGO financing mainly was part of direct agreement for service provision, whereas in certain cases, especially by the Assembly, specific NGO projects were supported. See the figures below:

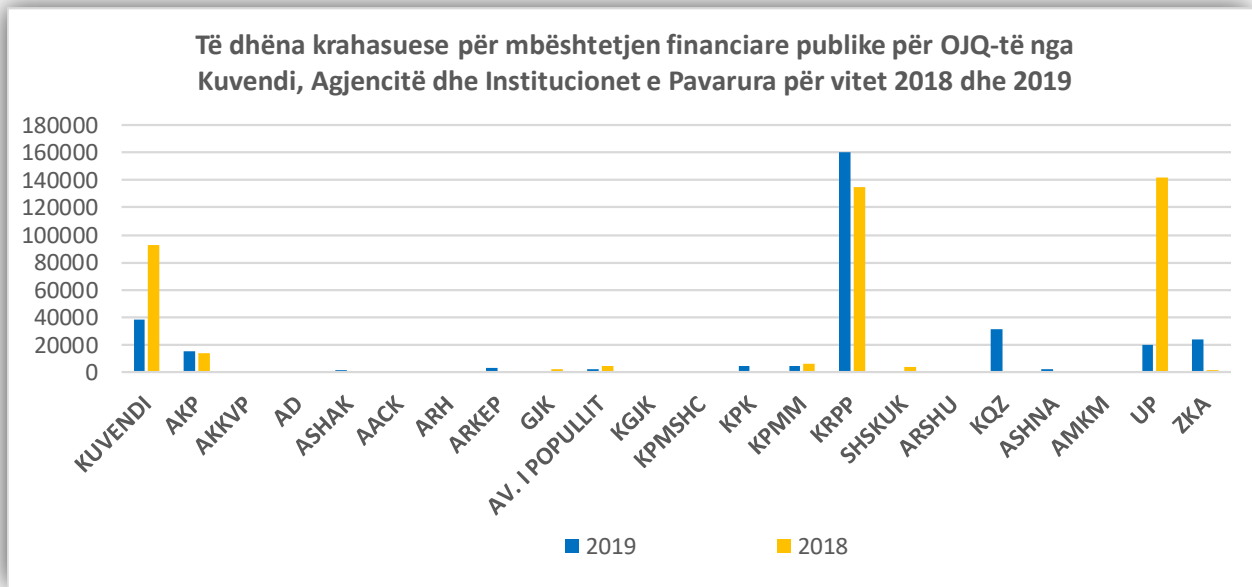

Figure 11. Support to the NGOs by the Assembly, agencies and independent institutions 2018-2019

The figure below shows the data on the number of beneficiary NGOs by the Assembly and other institutions and agencies. Given the nature of financing by these institutions, there is no significant difference in the number of beneficiary NGOs within these institutions.

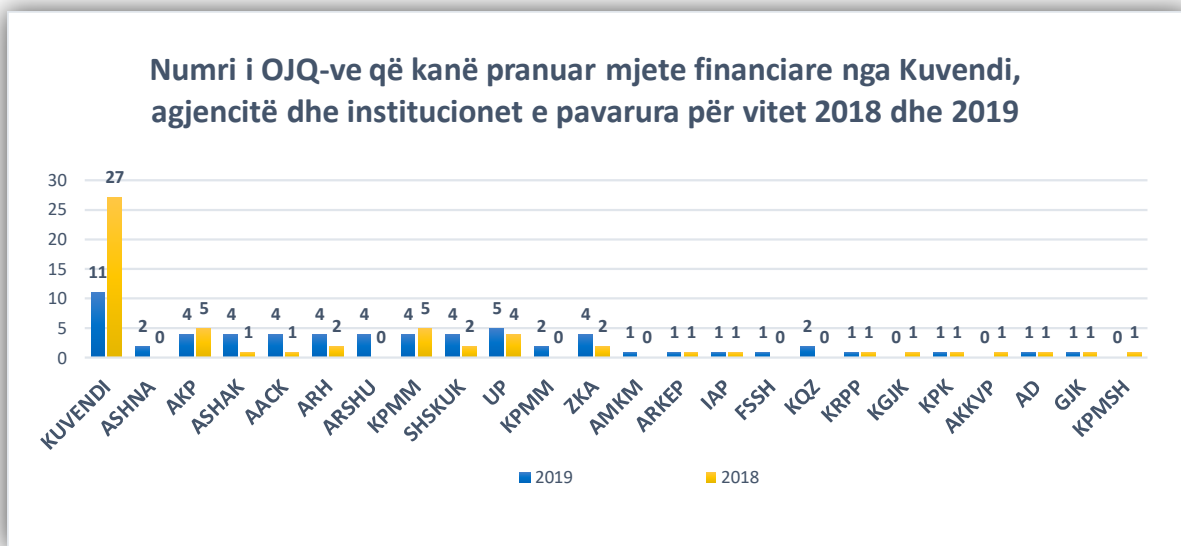

Figure 12. Number of beneficiary NGOs by the Assembly and Independent Agencies 2018-2019

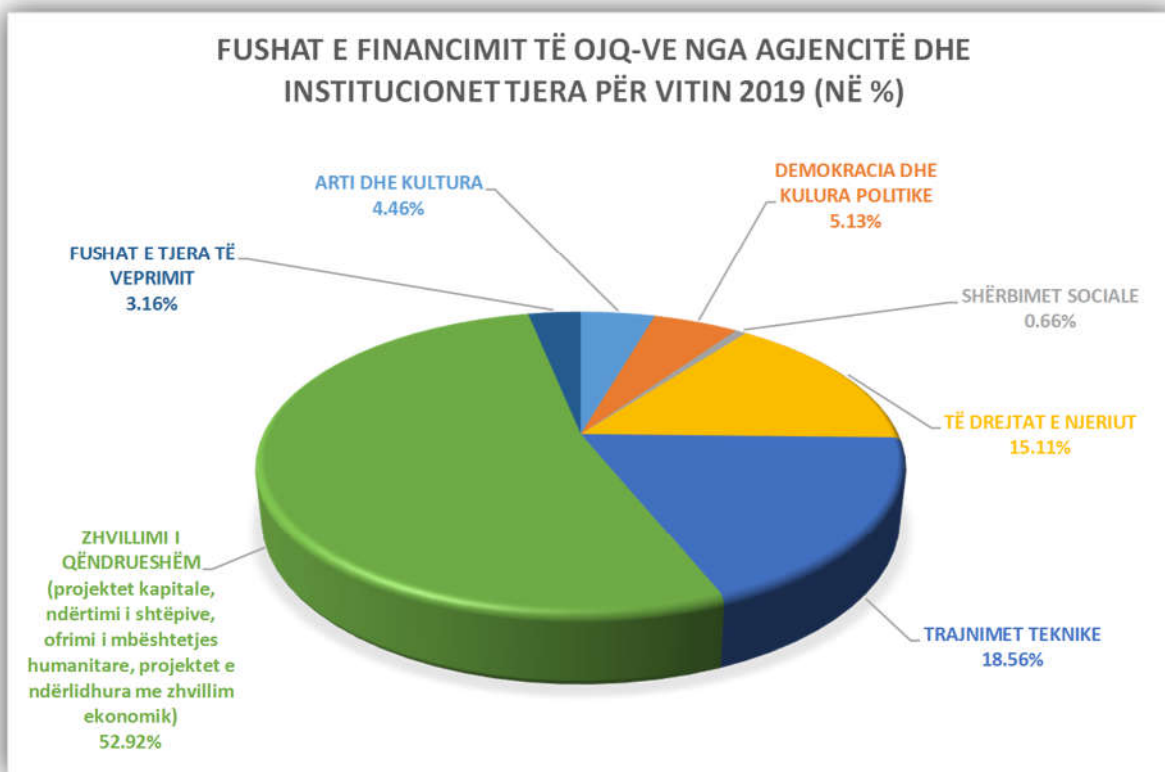

Figure 13. Areas of financing of NGO projects by the Assembly and Agencies and other institutions for 2019 in approximate % of financing

5. CONCLUSIONS AND RECOMMENDATIONS

The conclusions of this report indicate that a number of conclusions and recommendations remain the same from the previous year, in particular in terms of reporting by the institutions to the Office of the Prime Minister. This is due to the fact that for many budgetary organizations it is still challenging to submit reports. In the absence of these reports, the OPM has been repeatedly obligated to use data from the Treasury, which do not provide the necessary information in particular regarding the details of funded projects. They provide financial data rather than substantive content related to supported projects.

Regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of the Public Financing of NGOs regulates in a unified manner the public financing of the NGOs for all budgetary organizations. This regulation is based on the Law on the Management of Public Finances and Responsibilities. Article 53 of the law provides: *“The Minister shall have the exclusive authority to issue rules governing the process that shall be followed by the concerned budget organization or public authority when selecting the recipient or recipients and determining the amount or amounts to be provided as a grant, donation or subsidy. Such rules shall ensure that the process is strictly aimed at achieving the intended purpose of the Assembly when it authorized such grant, donation or subsidy in the concerned Appropriations Law.”*⁹ Therefore, public institutions must keep in mind that failure to apply this regulation is directly considered to be in contravention of the Law on the Management of Public Finances and Responsibilities, which is the key legislation in the area of public finances in the Republic of Kosovo.

The reporting of public institutions should be structured, in standard forms as required by regulation; not only to enable the Office for Good Governance to prepare a comprehensive public financial support report for NGOs, but at the same time to enable transparency in the use of public funds. Budgetary Organizations must report any public financial support provided to entities that are registered as Non-Governmental Organizations.

From an analysis of public financial support data for NGOs in 2019, it can be seen that the Government of the Republic of Kosovo and other public institutions have continued to provide considerable public financial support to NGOs. This public financial support declined in 2019, including at the central and municipal level. One of the reasons for the decline in public financial support may be the fact that almost half of the year saw Kosovo with a situation where the Government was outgoing, consequently there were dilemmas on the part of many central level institutions if they should continue with public calls or no. On the other hand, there is an increased awareness at the municipal and ministry level that public financial support for NGOs

⁹ Article 53, Par. 3, Law No. 03/L-048 on the Management of Public Finances and Responsibilities. Electronic version can be accessed at: <https://gzk.rks-gov.net/ActDetail.aspx?ActID=2524>

should be provided through public calls, consequently, there is a reduction in the provision of direct financial support to NGOs. These may be some of the factors that have contributed to this decline in public financial support for NGOs.

Based on an analysis of the reported data, but also on data collected by the Office for Good Governance, there is a significant improvement compared to the previous year in terms of transparency of financing for NGO projects. This is due to the fact that the number of public calls by public institutions has increased significantly. However, there are still many cases of direct public financial support through ad hoc decisions. On the website of public financing of NGOs launched by the Office of the Prime Minister there are many links of public institutions that have funded NGO projects during 2019 see: <http://ojqfinancime.rks-gov.net/thirrjet-publike/>. Based on data reported for 2019, we can consider that there is an improvement in terms of monitoring projects and funded programs of NGOs. Unlike the previous year, the institutions reported an improvement in data related to the naming of projects as well as the activities of financed projects. However, much work remains to be done to improve reporting. On the other hand, public institutions that have not reported at all, should prepare and publish as soon as possible their report on public financing for NGOs in 2019, according to the requirements of the regulation. All public institutions, including ministries, municipalities and independent agencies, should increase their transparency regarding public financial support by preparing and publishing on their websites regular annual reports on public financial support for NGOs.

Even in 2019, the beneficiary non-governmental organizations are from all municipalities of Kosovo, this considering the fact that the municipalities participate almost equally in terms of public financial support for NGOs. When it comes to public financial support for NGOs at the municipal level, most of the beneficiary NGOs operate within the territory of the municipalities from which public financial support is provided.

According to the regulation, these reports should include among others: a) The name of the provider of public financial support (Ministry, municipality, ministry, agency, including specific programs within which public financial support is provided); b) The manner of allocating public financial support (through direct call/contracting); c) Public call through which financial support is provided; d) The full name of the beneficiaries of the financial support (including other data of the beneficiary, Address, Registration Number and Fiscal Number and data on the responsible person of the NGO; e) Name of the financed project/program or activities; f) The amount given for financing the project/program; g) The duration of the project and the status of its implementation; h) General and specific areas of financing; i) Direct and indirect beneficiaries; j) Main activities or services carried out within the project; k) Geographical data regarding the place of implementation of the project; l) Number of persons who have benefited or been employed within the project / program. For purposes of standard reporting, Form 20, which is an integral part of the regulation, must be used. It should be noted that in 2019 there is a significant improvement in reporting compared to 2018, however there is still work to be done by public institutions. The Office for Good Governance, with the support of the European Union Technical Financial Assistance Project, worked during 2019 until March 2010 to build the capacity of public institutions, including on-the-job training. These trainings are seen to have had a positive effect on improving the implementation of the regulation in many public institutions.

Specific recommendations for budgetary organizations related to the public calls and the appropriate application of the Regulation:

- Public institutions should launch public calls for each public financial support for the NGOs.
- Budgetary organizations should set clear criteria in the public calls in accordance with regulatory requirements. These criteria should also include the types of permissible activities, the types of permissible and impermissible expenses, the minimum and maximum amount of financing, and other specific requirements required by the MF-No. 04/2017 on the Criteria, Standards and Procedures of Public Funding of NGOs
- Based on the criteria of the Regulation MF-No. 04/2017, competition should be only amongst NGOs.
- While preparing public calls budgetary organizations should not determine large differences between the minimum and maximum amounts for projects. This will facilitate the work of the evaluation commissions and will enable a fair evaluation.
- It is recommended that budgetary organizations allocate public calls in priority areas and if necessary within these calls and priority areas to determine the minimum, maximum amounts and total amounts within the priority area. This should be done to enable comprehensive access and a fair evaluation of project proposals
- Even in 2019, based on the analysis of the results of public calls, including the financed amounts of projects, it has been noticed that in many institutions, although the minimum and maximum amounts for the project have been determined and NGOs have applied within these amounts, practice shows that in many cases they have received only minimal amounts. This calls into question the possibility of implementing projects as a whole with much smaller amounts of financing. As a rule, in a competitive public call, if the projects meet the criteria of the public call and are in line with the requirements of the public call (*within the minimum and maximum limits of the call*), and if the budget is real they should be supported in entirety. The institution should not interfere in the budget or activities such interventions would affect competitiveness. Interventions can only be made if the budget organization considers that the budget is unrealistic (inflated or too low) to implement the projects with which NGOs have applied.
- The budgetary organizations should publish on their websites the reports on public financing of NGOs according to the standard form of regulation by March 1 of each year, for the previous year. Budgetary organizations that have not yet published the reports and which have not been sent to the OPM should publish them on their websites.

6. ANNEXES: LIST OF BENEFICIARIES BY INSTITUTIONS AND THE AMOUNT OF THE PUBLIC FINANCIAL SUPPORT FOR 2018

6.1 LIST OF NGOs THAT BENEFITTED BY THE PUBLIC FINANCIAL SUPPORT UNDER THE AUSPICES OF THE MINISTRIES OF THE GOVERNMENT OF THE REPUBLIC OF KOSOVO IN 2019

No.	BUDGETARY ORGANIZATIONS/PROVIDER PF THE FINANCIAL SUPPORT	NAME OF THE BENEFICIARY OF THE FINANCIAL SUPPORT	AMOUNT OF FINANCIAL SUPPORT

1	Municipality of Dragash	a	Public call for subsidies - DKRS	Integrimi I Rinise ne Shoqerine Dragash-IRSHD	5117539	Blaq-Dragash	Orientation of youth in studies and leadership	2500	The project aims to inform youngsters about their future opportunities after graduating from high school or after completing the first cycle. To be informed about the possibility of internships, finding a job, preparing documents for application for scholarships. Also, youngsters will be prepared for leadership and how to achieve the goals.

European Union
Kosovo

A project implemented by:

2	Municipality of Dragash	a	Public call for subsidies - DKRS	Gora Region	5116260	Restelic, Dragash	Embargo	1500	Through this project, a short film was made showing the situation of the 1990s in the former Yugoslavia on the deployment of the Embargo by the European Union due to the ethnic cleansing that Serbia had started in the Balkans. The film is based on real events that took place during that period, where some youngsters cross the border illegally to be supplied with food items and fuel. This film was made for youngsters who have no knowledge of the past event that happened in Kosovo.
3	Municipality of Dragash	a	Public call for subsidies - DKRS	QHPSM	511232-0	Prishtina	Skena	1000	This is an Educational Program, which has trained high school students about Media Arts, photography, film and various documentaries. All these activities are carried out with groups of enthusiasts who have expressed interest and talent in these areas. These groups have been trained to prepare a part of the documentary, ranging from script preparation to recording and editing. All participants were provided with certificates by the project leaders.
4	Municipality of Dragash	a	Public call for subsidies - DKRS	AVOKO	511239-0	Dragash	Promoting active youth in Dragash	4400	The project has focused on promoting Tourism of our municipality through youth. These youngsters are directly involved in meetings with the directors of the directorates as well as the municipal assembly members. These youngsters have identified the possibilities and potential for the development of tourism. All the potentials are presented in an exhibition through photography. The youngsters also visited other tourist places in Kosovo.

5	Municipality of Dragash	a	Public call for subsidies - DKRS	SHKA Bresana	5100535-0	Brodesane, Dragash	'Opoja Vallezon' Folk Music and Dance Festival	12000	The aim of the project is to organize a program where different societies from the Albanian territories will present their cultural program of dance and traditional songs. From this festival, parts of the original Albanian folklore will appear. The festival goes on for three days where the winner of this festival has been announced. In the framework of the festival, a mini-museum was held where traditional clothes were exhibited, the tools that were used and other items where the traditions and customs from the Opoja region are presented.
6	Municipality of Dragash	a	Public call for sports and culture	Klubi i Futbollit - KF Opoja	5114465-1	Dragash	Support for top athletes and sports clubs	10000	The project aimed to financially support the football club FC Opoja, which competes at the national level by the Kosovo Football Federation. The objectives of the project have been achieved, the youngsters have been active, and the local sport has been promoted.
7	Municipality of Dragash	a	Public call for sports and culture	Kf Aroma	511649-3	Buzes Dragash	Support for top athletes and sports clubs	2500	The aim of the project was to raise and prepare the U11, U13 and U15 age groups, in sports activities, respectively Small Football. These youngsters have participated in the Regional League - Prizren, where they have been very successful.
8	Municipality of Dragash	a	Public call for sports and culture	Fc Dragashi Sport	5114650-6	Glloboqice	The best promoter of the cohabitation communities of multiculturalism in Dragash Municipality	2500	The project has involved youngsters from both Albanian and Gorani communities in their training for small football. The children were divided into several different age groups who had exercises 3 times a week, and in the last few weeks the directors in Prizren took part in the league where they played football matches. The purpose of this activity has been for both communities to benefit from this activity.

9	Municipality of Dragash	a	Public call for sports and culture	Klubi i mundjes Hidroterm	5110916-3	Suhareka	Organizing traditional wrestling competitions and horse racing	12000	The aim of this project was to show the long-standing tradition of the Opoja region in the Pelivan race and the running of the Horses. Competitors from Bulgaria, Macedonia, Albania and Kosovo also take part in this competition. This event is organized in honor of the liberation of Dragash.
10	Municipality of Dragash	o	Co-financing for the organization for cultural activities of festive dates in the Municipality of Dragash	Shka Bresana	5100535-0	Brodosane Dragash	Celebrating the festive dates in the Municipality of Dragash and promoting culture in cultural festivals	4100	
11	Municipality of Dragash	g	Co-financing for tourism	UNDP			Construction of resorts, regulation of inns and training of youngsters for tourism	20000	Promotion and development of tourism. The Municipality of Dragash / Draga., In cooperation with UNDP, has made arrangements for the tourist infrastructure, setting up ten recreational and leisure resorts for tourists and people who are passionate about tourism. These resorts are located in some attractive parts of Opoja and Gora. Benches and garbage bins have also been set up along the way.
12	Municipality of Dragash	o	Co-financing in the agriculture field	Caritasi Switzerland			Supporting farmers engaged in the cultivation of aromatic plants, beekeepers and their training	14000	The Swiss Caritas together with the Municipality of Dragash have supported the farmers of our municipality in the establishment of plantations with fruits and conveyors, as well as beekeepers to help with equipment and hives for bees.

13	Municipality of Dragash	o	Co-financing for the construction of houses for families with serious economic situation	Shoqata Bemirese Jetimat e Ballkanit	5112584-3		Construction of houses for the poor	35000	The Municipality of Dragash / Dragash has reached a cooperation agreement with the Balkan Orphans Association for constructing 7 houses for the poor families of Dragash / Dragaash. These houses have been completed and families have received the keys to the houses.
14	Municipality of Dragash	n	Decision	Qendra per Strehimin e Grave dhe Femijeve			Housing for women and children after domestic violence	500	Housing for victims of domestic violence, including shelter, food, clothing.
15	Municipality of Dragash	n	Decision	Kryqi I Kuq I Kosoves				500	The Red Cross of Kosovo, based in Dragash / Draga., has been funded by the Municipality of Dragash in organizing the First Aid Trainging, where lectures and training on how to provide first aid have been held.
16	Municipality of Dragash	n	Decision	Biser DFD	5110867-1			400	This project has featured traditional Gorani songs and dances in the village of Restelic in the Dragash Municipality. These songs and dances have been recorded and broadcasted on the local radio. The goal has been to protect and preserve the folklore and spiritual heritage of these three.
17	Municipality of Dragash	c	Agreement	Asociacioni I Komunave te Kosoves	5101800-1		Membership in AKM	3399.7	This program aims to represent the municipalities of Kosovo in local and international institutions.
