Opening remarks

Dear Sir/Madam

The publication of the Annual Report on public financial Support for Non-Governmental Organizations in the Republic of Kosovo is, without a doubt, an extraordinary institutional success. In 2022, in addition to the publication of this report, there have been positive developments, progress, and particular success towards increasing transparency in public institutions in the area of public financing of NGOs with the advancement of the online platform.

This year we are realizing almost full transparency of budget expenditures for the civil society sector will be achieved in 2022 by providing all data on the process of public funds expenditure for NGOs. Work has been done and it was managed to have the 2022 report prepared and published directly on the platform, thus almost all budget organizations have reported directly through the platform, uploading data on the public funding of NGOs that have supported them directly on the platform according to the progress that has been achieved. The reporting process has therefore been continuously advanced, i.e. not only by creating and launching the funding platform, but also enabling reporting directly to the platform for public funding of NGOs. Through a simple search on the online platform, data on public financial support from budget organizations for NGOs can be found by years, institutions, number of NGO projects, etc.

The Office of Good Governance within the Office of the Prime Minister has given and keeps giving a constant contribution to the advancement of transparency and accountability in the provision of public financial support to NGOs even during 2022. The contribution of the Office of Good Governance/Office of the Prime Minister should be seen beyond this report, in particular in providing support to public officers as well as to NGOs, through the support of responsible officers of public institutions with the aim of the best possible implementation of regulation MF-No. 04/2017 on the criteria, standards and procedures on public funding of NGOs.

The existing Platform for Public Funding of Civil Society Organizations in Kosovo has been improved with an expert engaged by TACSO to help all stakeholder, mainly ministries and municipalities in the Republic of Kosovo, in public funding of NGO projects and programs in accordance with the rules and requirements provided for in Regulation MF-No-04/2017 on on Criteria, Standards and Procedures on Public Funding of NGOs.

This report enables us to understand the progress Kosovo has achieved in the area of public funding of NGOs, but also in enhancing public trust in institutions and establishing partnerships with civil society organizations. The implementation of procedures, criteria and standards for transparency, accountability and competition will enable achieving the goals of the government's strategy for cooperation with civil society for public funding for NGOs.

Sincerely,

Habit Hajredini, Director of the Office of Good Governance – Office of the Prime Minister

1. INTRODUCTION

The Government of the Republic of Kosovo in order to implement the criteria and procedures of Public Funding of Non-Governmental Organizations defined under Regulation of the Ministry of Finance No. 04/2017 on the Criteria, Standards and Procedures of Public Funding of NGOs, through the Office of Governance within the Office of the Prime Minister, jointly with the line ministries and municipalities of the Republic of Kosovo, continued with the publication, collection and reporting of data on public funding of NGOs.

The Office of Good Governance/Office of the Prime Minister jointly with the Ministry of Finance established pursuant to Regulation MF-No. 04/2017 a system with unique rules regarding public funding of NGOs in Kosovo, which rules define the minimum criteria related to public funding of NGOs. Regulation MF-No. 04/2017, along with other obligations, defines in detail the responsibility that the public institutions have for reporting on public funding of NGOs. The regulation aims to unify procedures for the entire cycle of public funding of NGOs, including planning, public calls, contracting, monitoring and reporting of this funding.

The report on public financial support to NGOs for 2022 includes information on public financial support provided by the Government, ministries and municipalities to support the projects of Non-Governmental Organizations in various areas, which are related to the priority of the Institutions of the Republic of Kosovo and the Kosovo society. The report covers all budget governmental organizations at the central and local levels which in any form have provided financial support to non-governmental organizations.

The NGO funding reporting process has been continuously advanced, i.e. not only by creating and launching the funding platform, but also developing it to a level that enables direct reporting to the platform for public funding of NGOs <http://ojqfinancime.rks-gov.net>.

Through a simple search on the online platform, data on public financial support from budget organizations for NGOs can be found by years, institutions, number of NGO projects, etc. This process has been advanced all the time, i.e. until in 2020 when the platform <http://ojqfinancime.rks-gov.net> was created and launched, which allowed for enhancing transparency in the funding of NGO projects, and creating not the opportunity to publish more data on projects funded by public authorities.

The publication of the comprehensive report on public financial support to NGOs in the Republic of Kosovo for the year 2022 has already become a continuous practice of the Government of the Republic of Kosovo in recent years. This report aims to enhance the transparency and accountability of public institutions, aiding in establishing a mutual trust between public institutions and civil society. Therefore, the continuous publication of annual reports on public financial support for NGOs had its own positive impacts in improving the applicability of the legal regulations covering the area of public funding of NGOs in the Republic of Kosovo.

Since the first report of 2015-2016, when there were no rules regarding the criteria, standards and procedures on public funding of NGOs until 2022, a highly significant improvement can be observed

both in terms of establishing the legal framework, as well as in its implementation in practice. The Office of Good Governance within the Office of the Prime Minister is continuously working with public institutions, to enhance transparency, and accountability and implement appropriately the legal framework governing this area. The publication of the Annual Reports on public financial support to NGOs received positive feedback from all institutions, civil society, but also from the European Commission Report, considering it as a positive step towards greater transparency of public funding of NGOs. Advancement can be observed in the application and implementation of the regulation regarding the public funding of NGOs. Institutions have published public calls on their websites in most cases, and the same are available online. However, there are still cases where public financial support has been provided not entirely in accordance with the rules, therefore, even though the regulation is clear in its requirements, some of the budget organizations, for example, have opened public calls, but the same have not been fully in line with the requirements of the regulation.

Regarding the reporting and publication of information related to the public funding of NGOs for 2022 by the Budget Organizations, we have quite an evident improvement in the situation, because this comprehensive report is much more complete in terms of all allocation procedures of public funds starting from planning, launching calls up to reporting directly on the platform of budget organizations for public funds to NGOs. All Ministries (8 Ministries have reported directly and 07 of them have not supported NGOs), the three OPM offices have reported directly on the online platform regarding the allocation of funds to NGOs. There are also 31 municipalities that have reported on public funding <http://ojqfinancime.rks-gov.net/> for funds allocated to NGOs (of which, four municipalities reported that they have not allocated funds, one reported by e-mail and the others directly on the platform), without calculating in detail the technical omissions or incomplete reports for such allocation of funds, but a significant improvement in the reporting process. Deçani and Peja are the two municipalities that have not reported on the public funds they allocated to NGOs in 2022 and five minority municipalities have not reported this year (Zvecani, Partesh, Shterpca, North Mitrovica and Zubin Potoku).

As a result, the Office of Good Governance, in order to inform the public as best as possible of public financial support to non-governmental organizations, has also cooperated this year with the Ministry of Finance, namely the Treasury. This was done in order to prepare a more correct and comprehensive report based on the payments that budget organizations have executed for the beneficiaries registered in the Treasury as Non-Governmental Organizations. We believe that the publication of this report will contribute to enhancing the transparency and accountability of public institutions and at the same time it will have an impact on the improvement of government cooperation with civil society in the Republic of Kosovo.

The Office of Good Governance within the Office of the Prime Minister worked and supported many officers from various Government Institutions/Budget Organizations by assisting and strengthening their capacities in implementing the requirements of this regulation.

We seize this opportunity to thank all public institutions on behalf of the Office for Good Governance/Office of the Prime Minister for their continuous cooperation and at the same time we are looking forward a greater dedication and cooperation in the future.

1.1 The methodology used

The Office of the Prime Minister/Office on Good Governance and the Ministry of Finance have already established a transparent and accountable system for funding Civil Society Organizations. The Office of the Prime Minister/Office of Good Governance has strengthened the transparency and accountability for the allocation of public funds for CSOs even more by developing, updating and upgrading the Online Platform for Public Funding of NGOs <http://ojqfinancime.rks-gov.net/>. This is definitely contributing to the increased public trust in public institutions and in partnership with civil society organizations. We also believe that this will inspire citizens to become even more active and contribute to the benefit of the community.

The Office for Good Governance/Office of the Prime Minister in accordance with the requirements of the Regulation MF-No. 04/2017, but also based on the Recommendations of the Assembly which have already been adopted in the plenary session held on 4 October 2021 in the Performance Audit Report “Transparency and accountability in the process of funding non-governmental organizations”, and we as coordinator of the process have already strengthened the permanent mechanism which is coordinating the work of planning and annual reporting on funding of non-governmental organizations within each ministry and municipality.

The officers responsible for this process have been appointed by the Office of the Prime Minister, all ministries and the 33 responsible municipalities, while five Serbian municipalities are not part of the reporting process this year.

All contact points/coordinators have already been doing a better coordination of the planning process and annual reporting related to the public funds allocated to each non-governmental organization from the budget organizations in the Republic of Kosovo.

The Public Funding Platform underwent an upgrade to enable multi-user hierarchical reporting on public funding of CSOs from all Kosovo Ministries/OPM/Municipalities and their respective subunits. The Public Funding Platform now facilitates public funding reporting through double data entry, e.g. through direct reporting on the platform of each of the projects funded by public institutions, or mass reporting enabling public authorities to collect data from all subunits and import such data through the platform import module. Regarding public access to the platform, there are new data filtering features as well as interactive charts that visualize data and help the public get a sense of how public money is spent by each of the institutions, CSO beneficiaries, the territories where funds were spent for the general areas and project activities. Another upgrade and advancement in this platform implemented with the TACSO project is the connection between the Public Funding Platform of NGOs and the Donors Platform, which has been completed and where the entire public can see the funds allocated by donors to NGOs in the Republic of Kosovo. The full implementation of changes and reforms to the platform has been achieved in 2022.

The achievements and challenges of government-civil society cooperation have been identified and assessed in this year's Progress Report (Country Report). According to the Country Report, civil society in general continues to operate in a favorable environment. However, civil society and the government must continue to further improve cooperation between them and increase the ability of civil society to contribute meaningfully to the development of public policies. Further efforts are still needed to increase the transparency of public funding for civil society organizations (CSOs).

Public funding for non-profit organizations is reported annually and made publicly available through an online database. The government appointed coordinators of public funds in each central public institution in order to enhance the effectiveness of the process. The Regulation on Public Funding of NGOs requires regular monitoring and follow-up by the Ministry of Finance. The existing platform for public funding of CSOs has been significantly improved and advanced, but there is still a need for capacity building among public officials to implement the regulation and to use the platform according to the advanced system.

What is worth mentioning at this stage of the reporting is that a review of the current regulation on public funding of NGOs has already been initiated by the MFLT at the end of 2022 and the beginning of 2023, to address the major obstacles shortcomings during the first years of its implementation.

Considering that there are budget organizations that have not managed to submit their reports in accordance with the requirements of the Regulation, the Office of Good Governance/Office of the Prime Minister, in addition to the data forwarded by the organizations that have reported, has used as supplementary and comparative data and the database provided by the Treasury Department within the Ministry of Finance. The data provided by the Treasury include all payments that were executed within the period 1 January - 31 December 2022 to suppliers registered with the Treasury as Non-Governmental Organizations.

In addition, the Office of Good Governance/Office of the Prime Minister has also analyzed several websites of public institutions to analyze public calls, their content and the flow of the process of a public call for NGO funding.

The Office of Good Governance within the Office of the Prime Minister is not responsible for the accuracy of direct reports and notes regarding the names of NGOs, or the fact that their names are registered as such with the Treasury.

2. GENERAL DATA FOR REPORTING BY BUDGET ORGANIZATIONS

2.1 Reporting by Budget Organizations

Pursuant to Regulation MF 04/2017, Kosovo has already built a system with unique rules regarding public funding, which rules define the minimum criteria related to public funding of NGOs. Regulation MF-No. 04/2017, along with other obligations, defines in detail the responsibility that the public institutions have for reporting on public funding of NGOs.

This Regulation has also defined not only the role the Office of Good Governance/Office of the Prime Minister but also all institutions for the process of preparing the comprehensive Report on Public Financial Support for NGOs. The Office of Good Governance/Office of the Prime Minister prepares the comprehensive report based on the reports of all public institutions. Therefore, the monitoring and reporting form for public financial support for NGOs according to this Regulation is very well structured, including the data that the annual report must contain. Pursuant to Article 26 of the Regulation, all budget organizations must prepare their report no later than 1 March for the previous fiscal year.

In addition to submitting this report to the Office of Good Governance/Office of the Prime Minister, budget organizations must publish the same report on the website of the relevant institution. The Office of the Prime Minister/Office of Good Governance is responsible for summarizing and publishing the comprehensive Report on Public Financial Support for NGOs, which must include all types of financial support given to NGOs during the previous year in all organizational units of budget organizations in the Republic of Kosovo.

Regulation MF. No. 04/2017 on the Criteria, Standards and Procedures of Public Funding of NGOs, as of its adoption by Ministry of Finance, aimed at unifying the procedures for the entire cycle of public funding of NGOs. Starting from 2021, we enabled direct reporting on the platform for public funding of NGOs <http://ojqfinancime.rks-gov.net/>. Reporting is being conducted according to the Manual prepared by the Office of Good Governance/Office of the Prime Minister supported by TACSO experts and in the format defined by regulation. On the basis of all reports of public institutions, the Office of the Prime Minister/Office of Good Governance prepared a comprehensive Report of Public Financial Support for NGOs in the Republic of Kosovo according to Article 26 of Regulation MF-No. 04/2017 2022.

The manual prepared has certainly explained and clarified in detail the options and steps on how to use the platform to report on financial support for CSOs directly on the platform. <http://ojqfinancime.rks-gov.net/>. Even this year, In order to facilitate the reporting work of the contact points, we have shared and forwarded to our colleagues the videos where the identification and orientation on the platform, data entering and reporting and data importing are described. The Office of Good Governance has changed the accounts for each responsible officer in the ministries and municipalities for access to the Public Funding Platform for reporting and completing the tables directly on the platform.

In the request for reporting, the Office of Good Governance/Office of the Prime Minister has informed the heads of budget organizations that the Regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of Public Funding of NGOs derives from the Law on Public Financial Management and Accountability, and failure to report or delays in reporting are therefore to constitutes a violation of the provisions of the Law on Public Financial Management and Accountability. The Office of Good Governance expressed this year, as in other years, all its readiness to provide its expertise and support to all budget organizations that need it in the preparation of the annual report.

Compared to previous years, reporting has improved significantly, however, this report shows that a significant number of budgetary institutions/organizations still need capacity building so that their reports meet the requirements of the regulation pursuant to the standards and deadlines set by the Office of Good Governance with the Office of the Prime Minister.

The following figure shows the percentage and number of budget institutions/organizations, including Ministries and Municipalities, and indicates whether they reported or not on funding in accordance with the requirements of Regulation MF-NR-04/2017 on Criteria, Standards and Procedures for Public Funding of NGOs.

There are 56 government budget institutions/organizations included in this report, notably: 03 (three) from OPM (Agency for Gender Equality, Office for Returns and Communities and Languages Commissioner), 15 (fifteen) Ministries and 38 (thirty-eight) Municipalities.

The figure below shows that out of a total of 56 budget institutions/organizations: 47 budget institutions/organizations have reported and 07 budget institutions/organizations have not reported, i.e. 88% of the institutions have reported either through the platform, e-mail and even those institutions that have not supported non-governmental organizations reported.

According to the report, this year there are 37 budget organizations or 66% of institutions that reported directly on the platform, 11 institutions or 20% reported that they have not supported non-governmental organizations, 01 (one) budget organization or 2% reported by email and are 07 budget organizations or 12% of institutions failed to report at all.

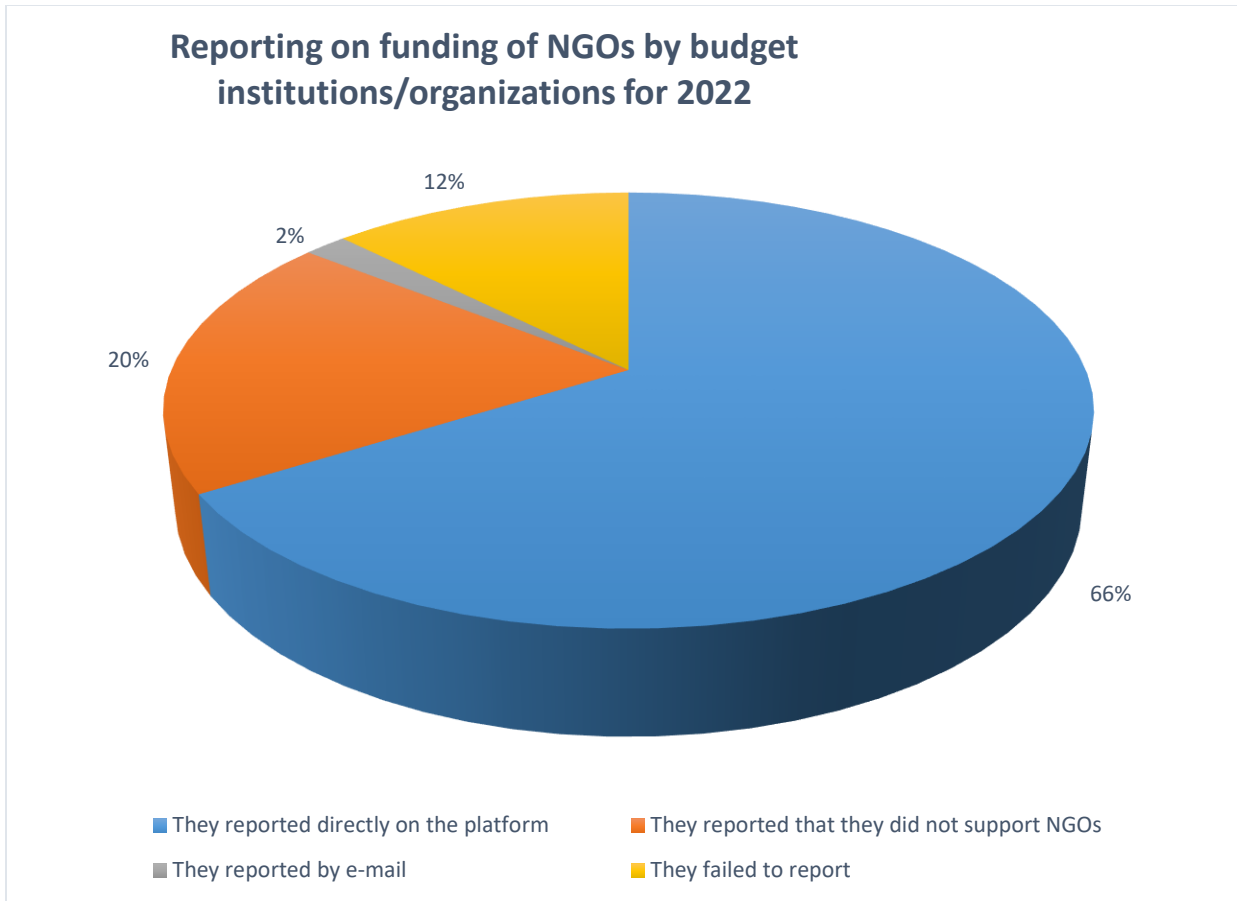

Figure 1. General data regarding reporting by budget institutions/organizations for 2022

Reporting on public funding of NGOs reported by budget institutions/organizations for 2022

The following table shows the data regarding reporting by each budgetary institution/organization required to report or funded NGOs in 2022. In the cases where N/A is indicated, the budget organization was not addressed with a request for reporting by the Office of the Prime Minister, however, from the Treasury data it was observed that such organization funded NGOs even in 2022. Some of the institutions underlined that they have not funded NGO projects or announced public calls, however, from the Treasury data, there are payments for suppliers who, according to the Treasury, have been presented as NGOs.

Table 1: The data on public funding of NGOs by reports forwarded/reported directly by the institutions on the platform, those that reported to have not allocated funds and those that failed to reported at all are presented in the following table:

NO.	NAME OF BUDGE ORGANIZATION	REPORTING TO OGG PURSUANT TO REGULATION MF-04/2017
	OFFICE OF THE PRIME MINISTER	Agency for Gender Equality reported directly on the platform Office of the Language Commissioner reported directly on the platform Community Offices reported directly on the platform
LINE MINISTRIES		
1.	MINISTRY OF LOCAL GOVERNMENT ADMINISTRATION	MLGA reported that there was no NGO funding in 2022
2.	MINISTRY OF EDUCATION, SCIENCE, TECHNOLOGY AND INNOVATION	MESTI reported directly on the platform
3.	MINISTRY OF AGRICULTURE, FORESTRY AND RURAL DEVELOPMENT	MAFRD reported directly on the platform
4.	MINISTRY OF JUSTICE	MoJ reported that they did not support non-governmental organizations in 2022
5.	MINISTRY OF FINANCE, LABOUR AND TRANSFERS	MFLT reported directly on the platform
6.	MINISTRY OF DEFENSE	MD reported directly on the platform
7.	MINISTRY OF ENVIRONMENT, SPATIAL PLANNING AND INFRASTRUCTURE	MESPI reported that there was no public call in 2022
8.	MINISTRY OF CULTURE, YOUTH AND SPORTS	MCYS reported directly on the platform
9.	MINISTRY OF INTERNAL AFFAIRS	MIA reported that they did not support non-governmental organizations in 2022
10.	MINISTRY OF FOREIGN AFFAIRS AND DIASPORA	MFAD reported directly on the platform
11.	MINISTRY OF HEALTH	MH reported that they did not support non-governmental organizations in 2022
12.	MINISTRY OF ECONOMY	ME reported directly on the platform
13.	MINISTRY OF REGIONAL DEVELOPMENT	MRD reported directly on the platform
14.	MINISTRY OF COMMUNITIES AND RETURNS	MCR reported that there was no NGO funding in 2022
15.	MINISTRY OF INDUSTRY, ENTREPRENEURSHIP AND TRADE	MIET reported that there was no NGO funding in 2022
MUNICIPALITIES		
1.	MUNICIPALITY OF DEÇAN	Municipality of Deçan failed to report
2.	MUNICIPALITY OF DRAGASH	Municipality of Dragash reported directly on the platform

3.	MUNICIPALITY OF FERIZAJ	Municipality of Ferizaj reported directly on the platform
4.	MUNICIPALITY OF GJAKOVA	Municipality of Gjakova reported directly on the platform
5.	MUNICIPALITY OF GJILAN	Municipality of Gjilan reported directly on the platform
6.	MUNICIPALITY OF DRENAS	Municipality of Drenas reported directly on the platform
7.	MUNICIPALITY OF GRACANICA	Municipality of Gracanica reported directly on the platform
8.	MUNICIPALITY OF HANI I ELEZIT	Municipality of Hani i Elezit reported directly on the platform
9.	MUNICIPALITY OF ISTOG	Municipality of Istog reported directly on the platform
10.	MUNICIPALITY OF JUNIK	Municipality of Junik reported directly on the platform
11.	MUNICIPALITY OF KACANIK	Municipality of Kacanik reported directly on the platform
12.	MUNICIPALITY OF KAMENICA	Municipality of Kamenica reported directly on the platform
13.	MUNICIPALITY OF KLINA	Municipality of Klina reported directly on the platform
14.	MUNICIPALITY OF KLOKOT	Municipality of Klokot reported that they did not support non-governmental organizations in 2022
15.	MUNICIPALITY OF LEPOSAVIC	Municipality of Leposavic reported that they did not support non-governmental organizations in 2022
16.	MUNICIPALITY OF LIPJAN	Municipality of Lipjan reported directly on the platform
17.	MUNICIPALITY OF MALISHEVA	Municipality of Malisheva reported directly on the platform
18.	MUNICIPALITY OF MAMUSHA	Municipality of Mamusha reported that they did not support non-governmental organizations in 2022
19.	MUNICIPALITY OF NORTH MITROVICA	Municipality of North Mitrovica failed to report
20.	MUNICIPALITY OF MITROVICA	Municipality of Mitrovica reported directly on the platform
21.	MUNICIPALITY OF NOVOBRDE	Municipality of Novo Berde reported directly on the platform
22.	MUNICIPALITY OF OBILIQ	Municipality of Obiliq reported directly on the platform
23.	MUNICIPALITY OF PARTESH	Municipality of Partesh failed to report
24.	MUNICIPALITY OF PEJA	Municipality of Peja failed to report
25.	MUNICIPALITY OF PODUJEVA	Municipality of Podujeva reported directly on the platform
26.	MUNICIPALITY OF PRISHTINA	Municipality of Prishtina reported directly on the platform

27.	MUNICIPALITY OF PRIZREN	Municipality of Prizren reported directly on the platform
28.	MUNICIPALITY OF RAHOVEC	Municipality of Rahovec reported directly on the platform
29.	MUNICIPALITY OF RANILLUG	Municipality of Ranillug reported that they did not support non-governmental organizations in 2022
30.	MUNICIPALITY OF SHTERPCE	Municipality of Shterpce failed to report
31.	MUNICIPALITY OF SHTIME	Municipality of Shtime reported directly on the platform
32.	MUNICIPALITY OF SKENDERAJ	Municipality of Skenderaj reported directly on the platform
33.	MUNICIPALITY OF SUHAREKA	Municipality of Suhareka reported directly on the platform
34.	MUNICIPALITY OF VITIA	Municipality of Vitia did not report directly on the platform/reported via e-mail
35.	MUNICIPALITY OF VUSHTRRI	Municipality of Vushtrri reported directly on the platform
36.	MUNICIPALITY OF ZUBIN POTOK	Municipality of Zubin Potok failed to report
37.	MUNICIPALITY OF ZVECAN	Municipality of Zvecan failed to report
38.	MUNICIPALITY OF FUSHE KOSOVA	Municipality of Fushe Kosova reported directly on the platform
OTHER INSTITUTIONS		
1.	OFFICE OF THE PRESIDENT	N/A - only the data received from the Treasury

3. GENERAL DATA ON PUBLIC FINANCIAL SUPPORT FOR NGOs AT THE LEVEL OF MINISTRIES, MUNICIPALITIES AND THE OFFICE OF THE PRIME MINISTER FOR 2022

From the data collected and processed on public funding of NGOs for 2022, we can conclude that cooperation with non-governmental organizations in the realization of government priorities in various fields has continued in 2022. Even during 2022, central and local level institutions have continued to support the projects and activities of non-governmental organizations, including the funding of specific projects or direct support for NGOs.

From analysis of data submitted by the institutions themselves and data from the funding platform <http://ojqfinancime.rks-gov.net> in 2022 at the level of the ministries, the number of projects for beneficiary NGOs was 435, while at the municipal level it was 1060, i.e. a total of 1495 projects.

From the analysis of the data provided by the institutions for 2022, it results that public financial support for NGOs from public institutions, including the central and local level, is 8,817,241.00 Euro, of which 4,866,022.00 Euro for the central level and 3,903,318.00 Euro for the local level, as well as 47,901.00 Euro reported by the municipality of Viti by e-mail.

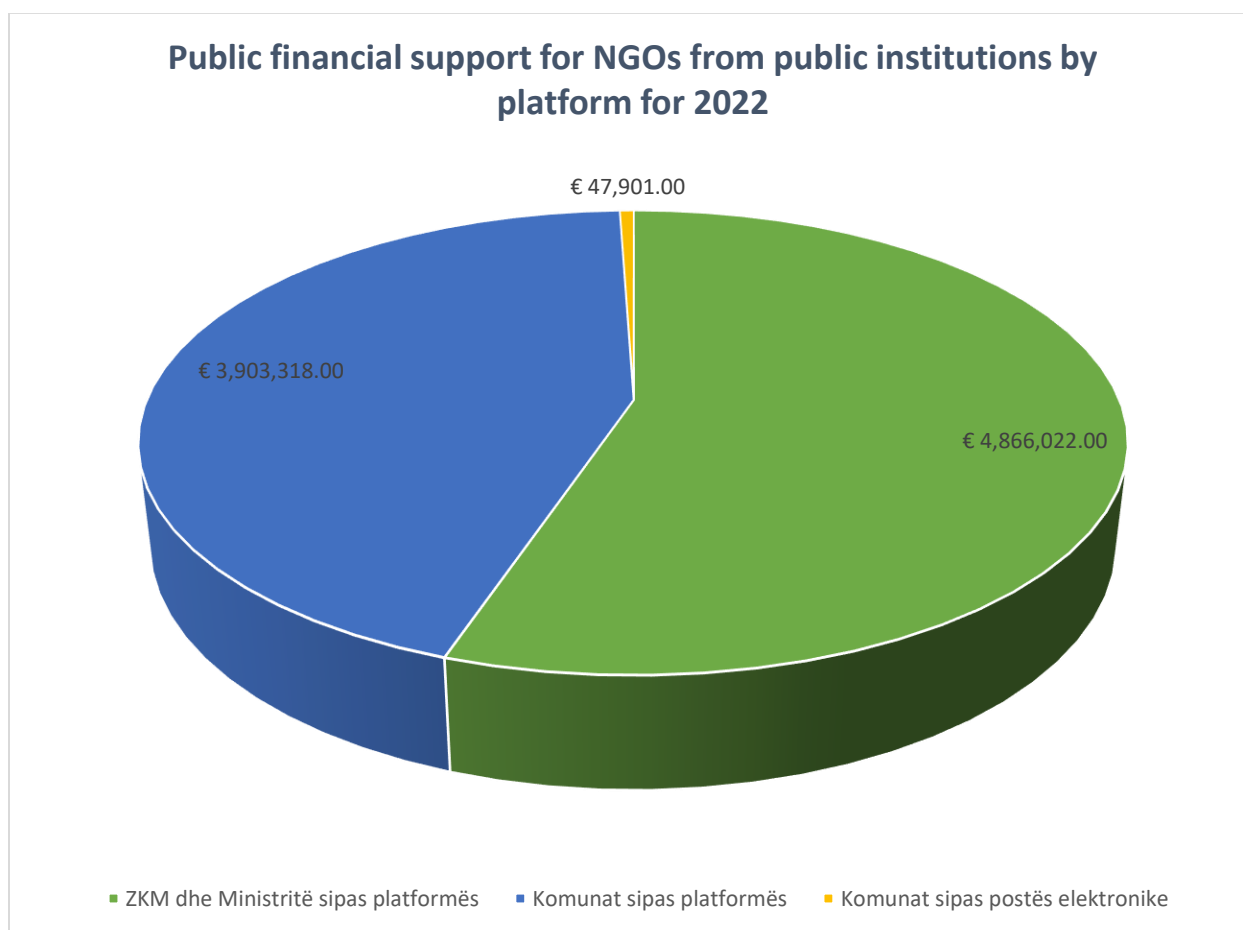

Figure 2. General data on public funding of NGOs according to reports received from budget institutions/organizations for 2022

From the following data, it can be seen approximately which areas have received the most funds or have been supported by the central level institutions, namely by the OPM and its Ministries, which are: social services 19.7%; art and culture 38.9%; education, science and research 17.7%; human rights 4.89%, unspecified 5.9%; sustainable development 2.79 and other areas 3%.

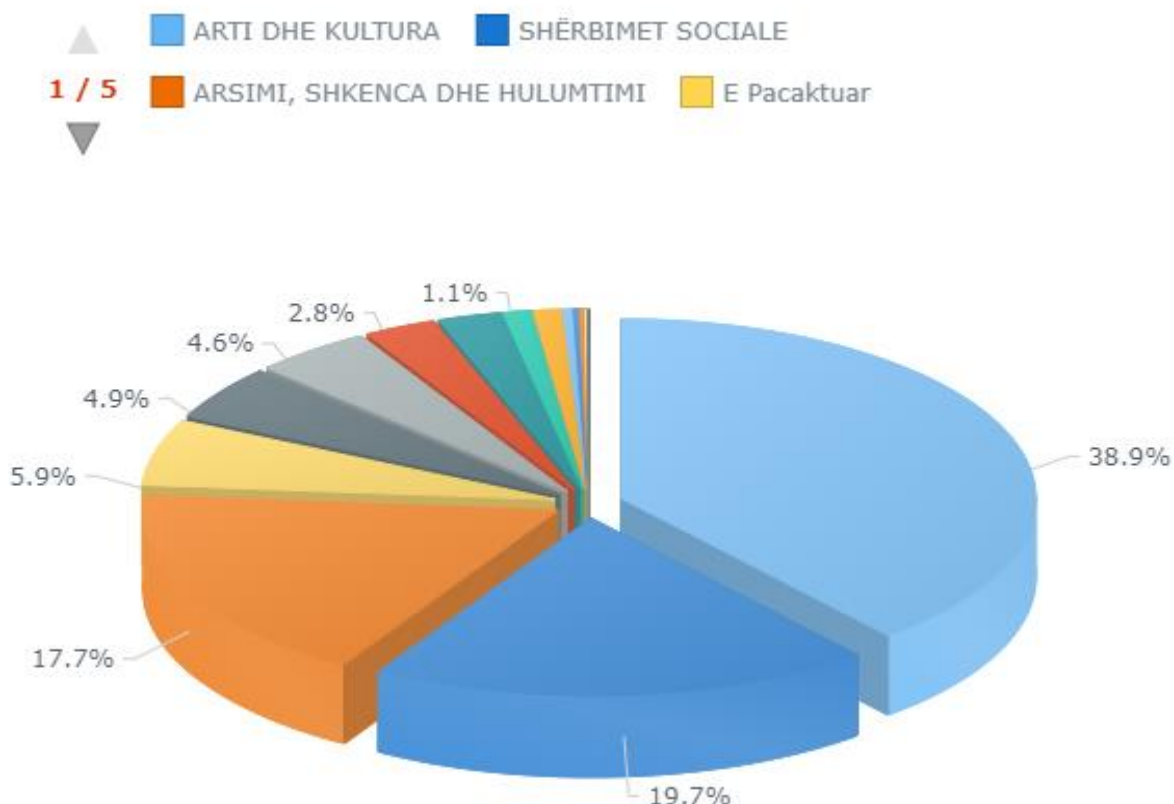

Figure 3. Funding areas of NGO projects by OPM/Ministries for 2022 in approximate percentage of funding according to data from the funding platform

Whereas the picture below reflects the funding opportunities for NGO projects from Municipalities for 2022 in approximate percentage of funding, always according to the data and reporting of municipalities on the funding platform. The figure below shows that the local level supported the following areas: sports with 32.5% of the funds; social services 11.3%; art and culture 22, 3%; health 3.6%; unspecified 10.5% and other areas 3.6%.

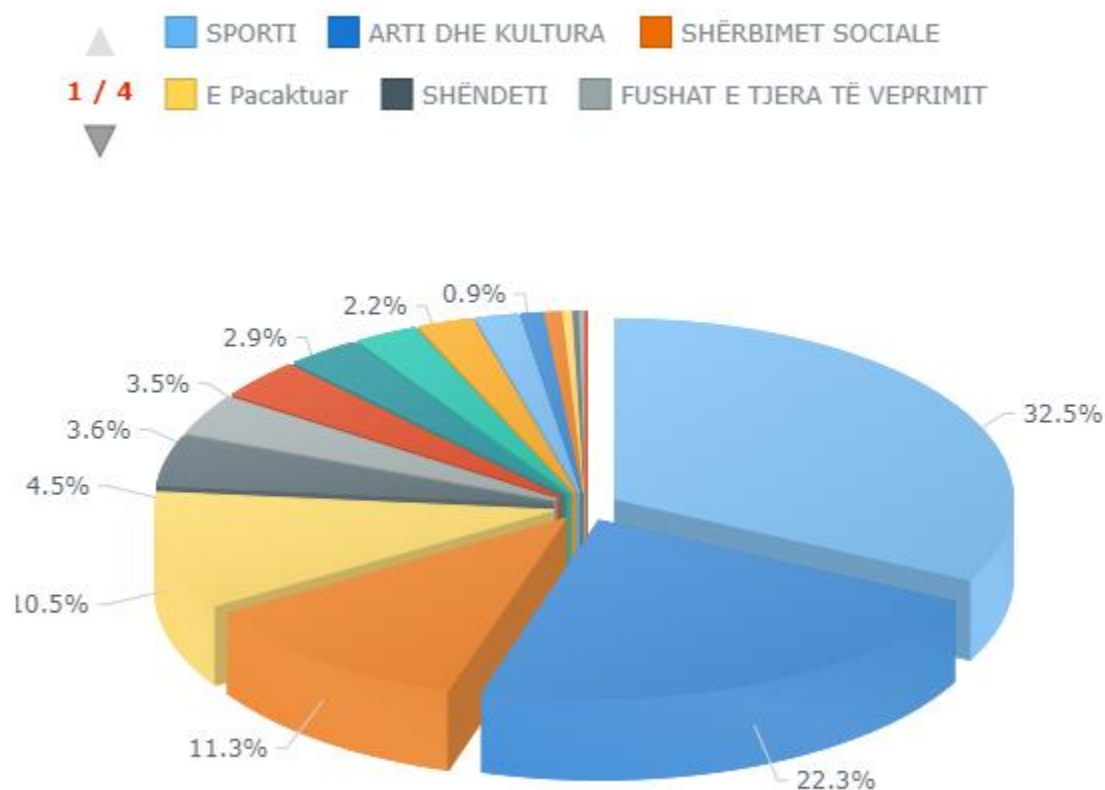

Figure 4. Funding areas of NGO projects by Municipalities for 2022 in approximate percentage of funding according to data from the funding platform

Whereas the figure below presents and reflects the approximate percentage data for public funding of NGOs for 2022 according to the platform and institutional reporting for OPM/ Ministries/Municipalities and International Donors.

The total amount of funds allocated to CSOs by OPM /Ministries /Municipalities and International Donors is 17,723,262.00 Euro. Of all this, the Office of the Prime Minister and the Ministries have allocated 4,866,022.00 Euro, municipalities have allocated 3,951,219.00 Euro, while international donors have allocated 8,906,021.00 Euro. Thus, local institutions have allocated a total of 8,791,340.00 Euro and international donors 8,906,021.00 Euro, and this as an aggregate amount reaches the figures of 17,723,262.00 Euro in 2022.

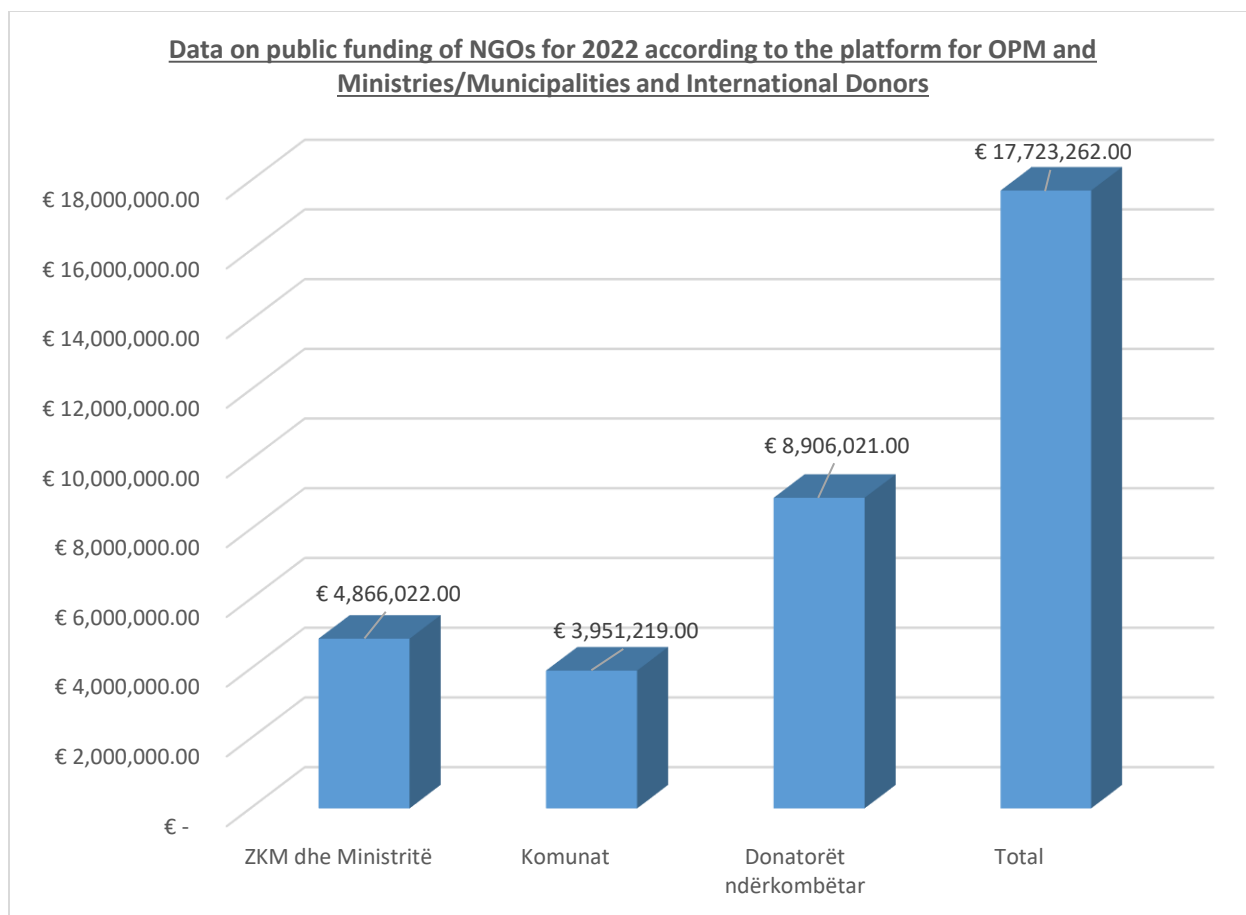

Figure 5. Data on public funding of NGOs for 2022 according to the platform for OPM/Ministries/Municipalities and International Donors

Data on public fund of NGOs for 2022 according to the online platform for OPM/Ministries and the Municipalities are presented in the figure below. The data on the number of beneficiaries (NGOs) from OPM/Ministries indicate 435 NGOs, while there are 1060 beneficiaries (of which 1039 were reported directly on the platform and 21 projects or beneficiaries via e-mail) from Municipalities in 2022. Thus, the total number of NGOs that have been supported in 2022 by OPM/Ministries and Municipalities is 1495 NGOs.

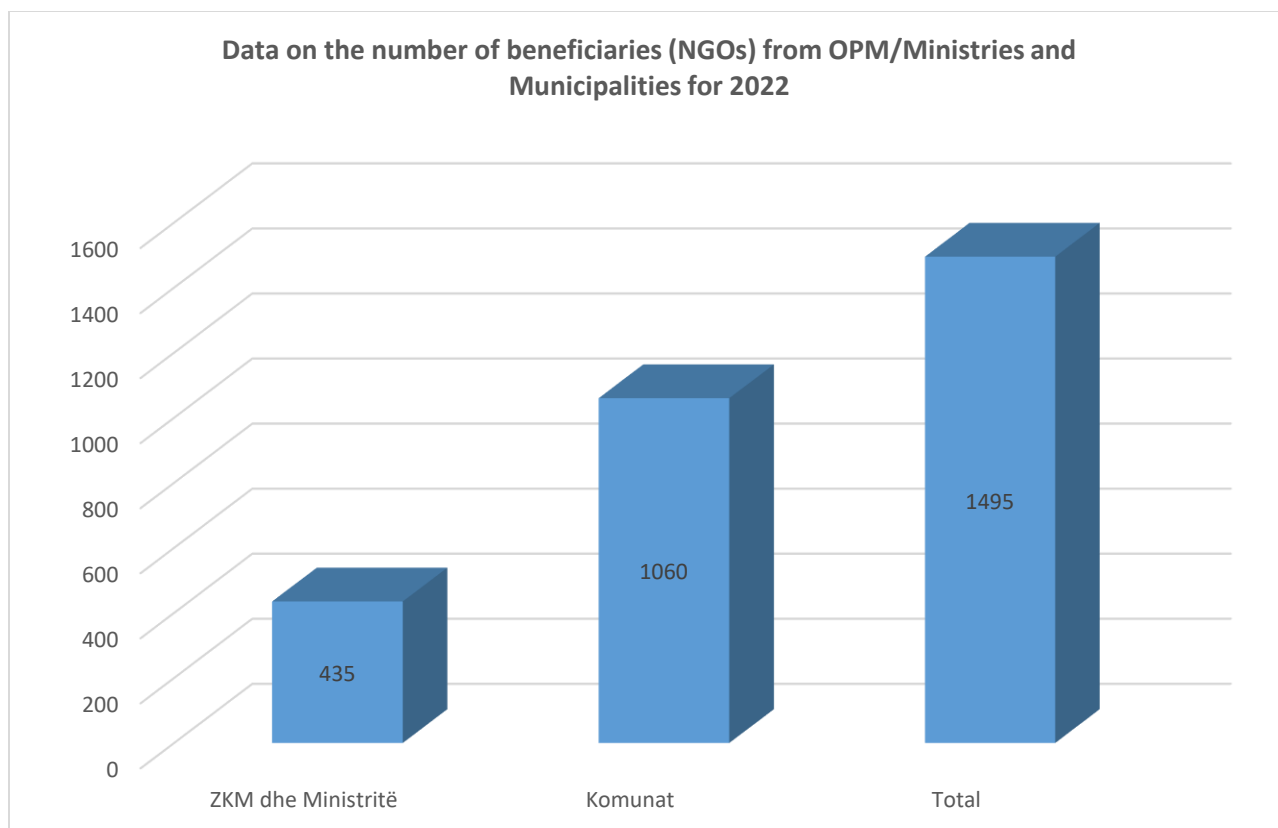

Fig 6. Data on the number of beneficiaries (NGOs) from OPM/Ministries and Municipalities for 2022

The figure below shows the comparative data on public funding of NGOs for 2022 and 2021, i.e., the data reported by public institutions according to the online platform for OPM/Ministries and the Municipalities have been compared.

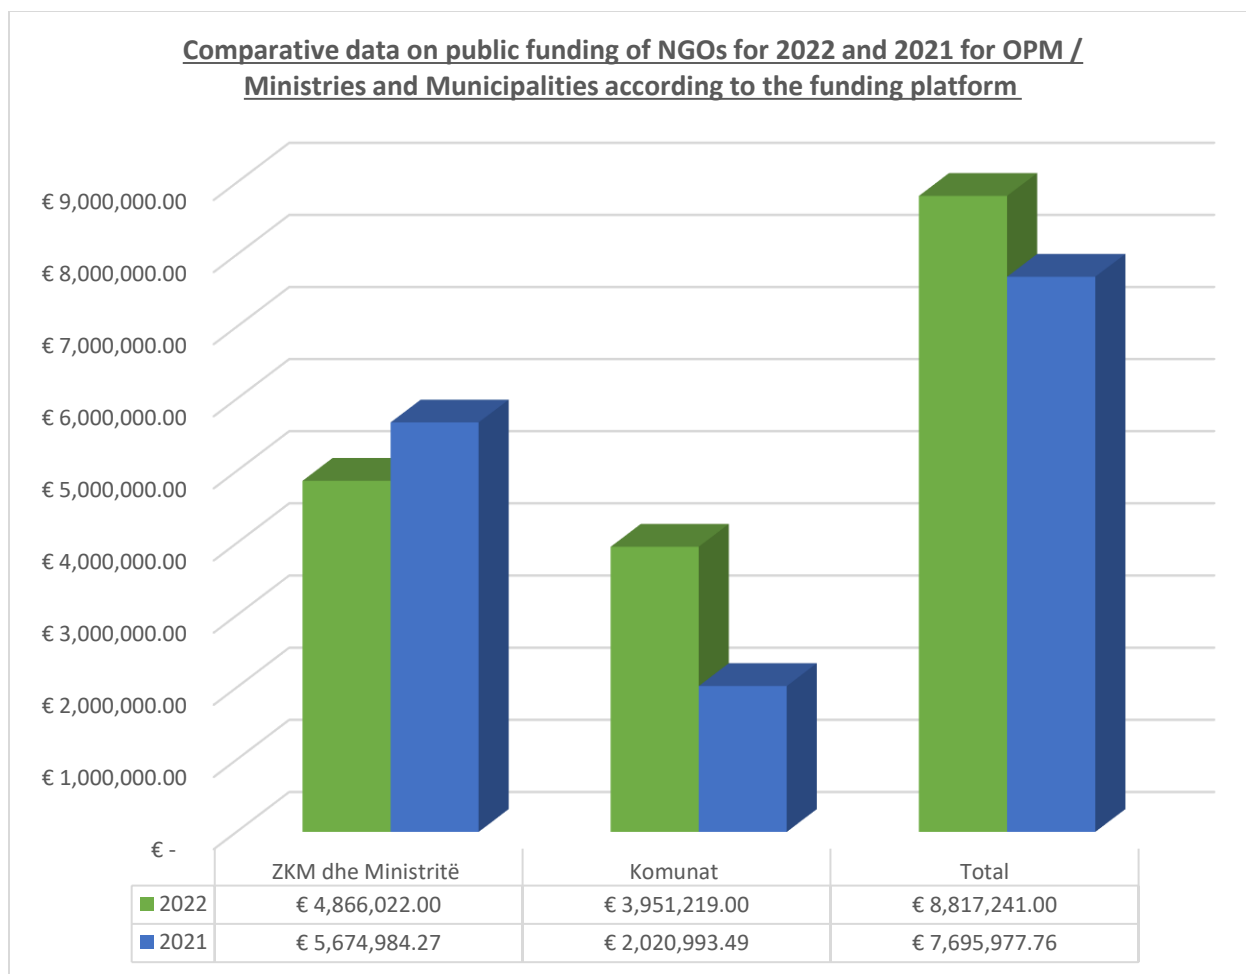

Figure 7. Comparative data on public funding of NGOs for 2022 and 2021 for OPM / Ministries and Municipalities according to the funding platform

The figure above shows the 2022 data at the level of ministries and municipalities according to the data and reporting of institutions on the platform for public funding . A decrease in the percentage of funds for NGOs can be observed from the Ministries' data for 2022 compared to 2021, while in the Municipalities we have an increase in the allocation of funds for NGOs. Thus, 4,866,022.00 Euro were allocated at the level of OPM and Ministries in 2022, while the municipalities allocated 3,951,219.00 Euro. However, 5,674.27 Euro were allocated at the level of OPM and Ministries in 2021, and the Municipalities allocated 2,020,993.49 Euro . The total in 2022 was 8,817,241.00 Euro, while 7,695,977.76 Euro were allocated. However, if we take the total for 2022, more funds were allocated than in 2021.

The figure below shows the comparative data on the number of beneficiaries (NGOs) from OPM/Ministries and Municipalities for 2021 and 2022, i.e., the data reported by public institutions according to the online platform for OPM/Ministries and the Municipalities have been compared. A significant decrease in support for the number of NGOs, namely beneficiaries, is observed in 2022, but the amount of funds is greater. At the level of ministries, while the number of NGOs in 2021 was 1073, this number in 2022 was 435, whereas at the level of municipalities, it was 2677 in 2021 and 1039 in 2022. The total number of NGO beneficiaries in 2021 was 3750 NGOs, while in 2022 there were 1474 non-governmental organizations or projects that have been allocated and 21 have been reported by e-mail, reaching a total of 1495 NGOs.

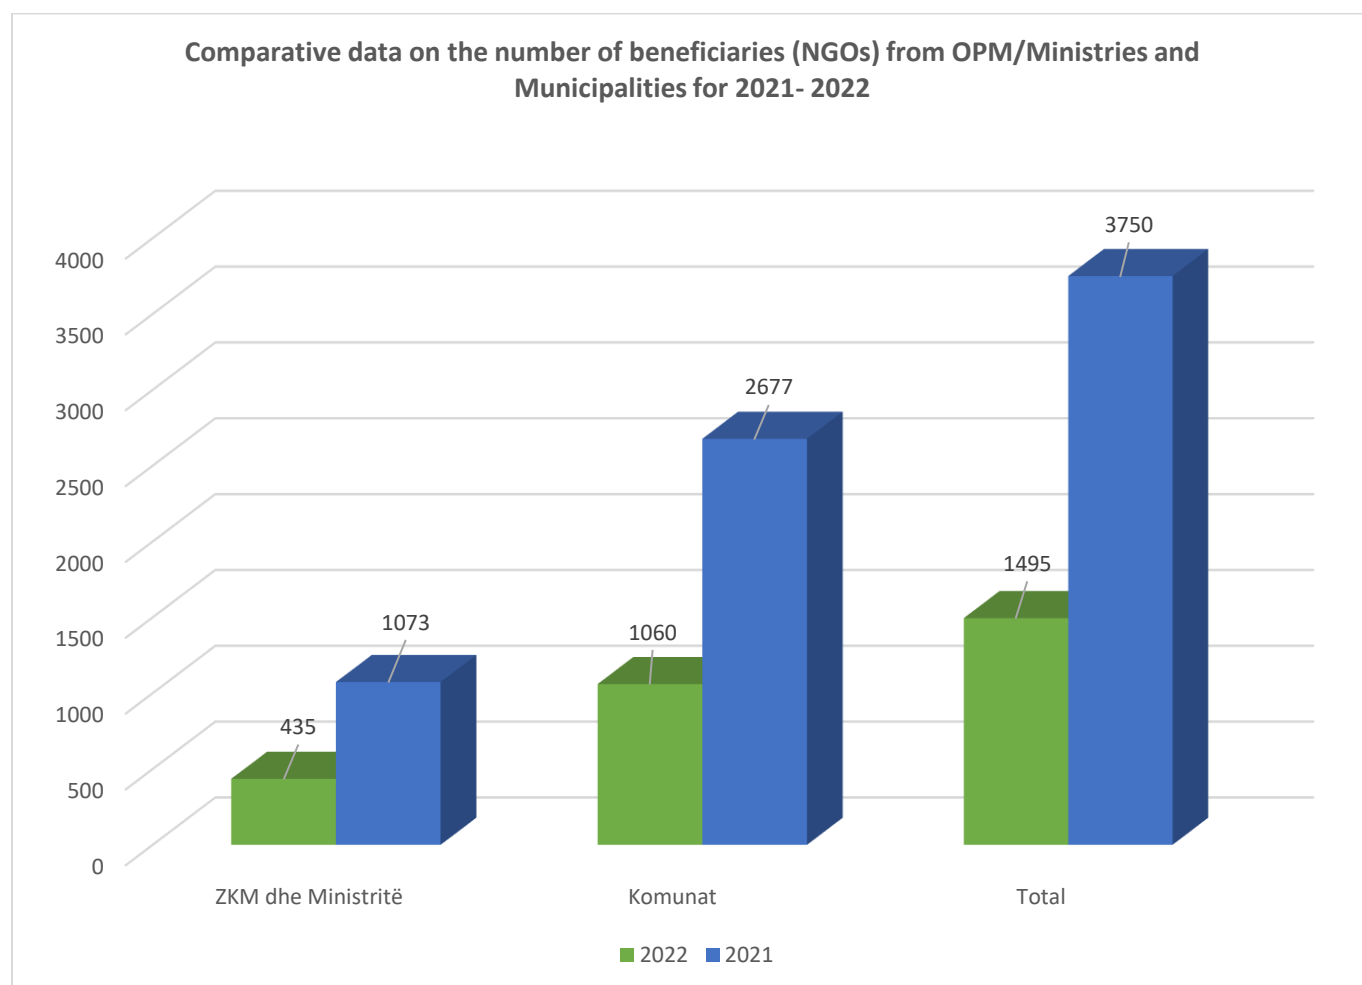

Fig 8. Comparative data on the number of beneficiaries (NGOs) from OPM/Ministries and Municipalities for 2021 and 2022

The purpose of financial support provided by OPM, Ministries and Municipalities

Regulation MF-No. 04/2017, along with other obligations, defines in detail the responsibility that the public institutions have for reporting on public funding of NGOs. The regulation aims to unify procedures for the entire cycle of public funding of NGOs, including planning, public calls, contracting, monitoring and reporting of this funding.

The report on public financial support to NGOs that is prepared by the Office of Good Governance/Office of the Prime Minister includes information on public financial support to NGOs, provided by the Government of the Republic of Kosovo, Ministries and Municipalities to support the projects of Non-Governmental Organizations in various areas, related to the priority of the Institutions of the Republic of Kosovo and the Kosovo society. The reports cover data for all budget organizations at the central and local levels which in any form have provided financial support to non-governmental organizations.

The NGO funding reporting process has been continuously advanced, i.e. not only by drafting and adopting the regulation, but also by creating and launching the funding platform and enabling reporting directly on the platform for public funding of NGOs <http://ojqfinancime.rks-gov.net>.

The reports were produced in accordance with the annual funding plans, but there is still room for improvement because they are not quite accurate and in line with the plans. All Ministries, Municipalities and offices within the Office of the Prime Minister reported directly on the online platform <http://ojqfinancime.rks-gov.net/> for the allocation of funds to NGOs and also institutions that have not allocated funds, always without counting in detail the incomplete reports or technical omissions for such allocation of funds. But what should be emphasized is the improvement with quite visible progress in this aspect.

Reporting is conducted according to the Manual prepared by the Office of Good Governance/Office of the Prime Minister supported by TACSO experts and in the format defined by regulation. The manual prepared explains and clarifies in detail the options and steps on how to use the platform to report on financial support for CSOs directly on the platform. <http://ojqfinancime.rks-gov.net/>. On the basis of all reports of public institutions, the Office of the Prime Minister/Office of Good Governance prepares a comprehensive Report on Public Financial Support for NGOs in the Republic of Kosovo according to Article 26 of Regulation MF-No. 04 2022.

Even this year, we as an office, in order to facilitate the reporting work of the contact points, have prepared, shared and forwarded to our colleagues the videos where the identification and orientation on the platform, data entering and reporting and data importing are described. The Office of Good Governance has changed the accounts for each responsible officer in the ministries and municipalities for access to the Public Funding Platform for reporting and completing the tables directly on the platform.

The NGO funding reporting process has been continuously advanced, i.e. not only by creating and launching the funding platform, but also enabling reporting directly to the platform for public funding

of NGOs. Through a simple search on the online platform, data on public financial support for CSOs can be found by years, institutions, NGOs etc.

This Regulation has also defined not only the role the Office of Good Governance/Office of the Prime Minister but also all institutions for the process of preparing the comprehensive Report on Public Financial Support for NGOs.

The preparation of the comprehensive annual Report on Public Financial Support for NGOs includes as follows:

1. Each provider of public financial support, following the preparation of the annual report under Article 25 of this Regulation, will submit an electronic copy of the report to the Office of the Prime Minister, namely the relevant Office of Good Governance, no later than 1 March.
2. The Office of the Prime Minister, on the basis of reports received from each provider of public financial support prepares the general annual report of public financial support for NGOs in the Republic of Kosovo no later than 31 March.

According to the regulation, such reports should include, among others:

- ✓ The name of the provider of public financial support (Ministry, Municipality, Agency, including the specific programs where public financial support is provided);
- ✓ The method of allocation of public financial support (through call/direct contracting);
- ✓ The public call through which the financial support was offered;
- ✓ The full name of the beneficiaries of the financial support (including other data of the beneficiary, address, registration number and fiscal number and data for the responsible person of the NGO);
- ✓ The name of the project/program or activities funded;
- ✓ The amount allocated to fund the project/program;
- ✓ The duration of the project and the status of its implementation;
- ✓ General and specific funding areas;
- ✓ Direct and indirect beneficiaries;
- ✓ The key activities or services carried out within the project;
- ✓ Geographic data regarding the place of project implementation;
- ✓ The number of people who benefited or were employed within the project/program.

For the purpose of standard reporting, the F20 form must be used, which is an integral part of the regulation, the manual and now of the platform for funding <http://ojqfinancime.rks-gov.net>. Now, with the advancement of the platform, coordinators have the opportunity and are reporting directly on the platform.

The Office of Good Governance/Office of the Prime Minister prepares the comprehensive report based on the reports of all public institutions. Therefore, the monitoring and reporting form for public financial support for NGOs according to this Regulation is very well structured, including the data that the annual report must contain. In addition to submitting this report to the Office of Good

Governance/Office of the Prime Minister, budget organizations must publish the same report on the website of the relevant institution. The Office of the Prime Minister/Office of Good Governance is responsible for summarizing and publishing the comprehensive Report on Public Financial Support for NGOs, which must include all types of financial support given to NGOs during the previous year in all organizational units of budget organizations in the Republic of Kosovo.

The Office of Good Governance/Office of the Prime Minister in accordance with the requirements of the Regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of Public Funding of NGOs, and for the most effective implementation of this regulation has established a permanent mechanism which is coordinating the work of planning and annual reporting on the funding of non-governmental organizations within each ministry and municipality. Hence, in order to advance the reporting process and a comprehensive approach to the implementation of Regulation MF-No. 04/2017, contact points (coordinators) have been appointed for communication and coordination with the Office of Good Governance/Office of the Prime Minister in the reporting process, and the officials who have been appointed by the Ministries and Municipalities have been recommended to be from the budget and finance departments or officials dealing with the implementation and monitoring of public funding projects and programs of NGOs.

The Office of Good Governance/Office of the Prime Minister held joint briefing sessions and capacity building meetings for responsible officials/designated coordinators in order to brief and familiarize them with process and procedures for the implementation of Regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of Public Funding of NGOs and the application of the regulation.

The officers (coordinators) responsible for this process have been appointed by all ministries, Office of the Prime Minister, as well as the 33 responsible municipalities, while five municipalities failed to report this year.

4. DATA ON PUBLIC FINANCIAL SUPPORT FOR NGOs ACCORDING TO OPM, MINISTRIES AND MUNICIPALITIES

4.1 General data on public funding of NGOs for 2022 as reported by the OPM and the Ministries

The following table includes the reports/data according to OPM, Line Ministries and Municipalities. The amount includes all payments made during the fiscal year from 1 January 2022 to 31 December 2022. These data are related to the payments presented in the annexes of this report, which include the list of beneficiaries.

NO.	NAME OF BUDGE ORGANIZATION	Amount allocated by institutions to NGOs in 2022 (Euro)
	<u>OPM and Ministries</u>	
I.	Office of the Prime Minister	795,938.00 Euro

1.	Ministry of Culture Youth and Sports	1.735, 63.00 Euro
2.	Ministry of Defence	312,456.00 Euro
3.	Ministry of Finance, Labour and Transfers	1.000,00.00 Euro
4.	Ministry of Economy	34,900.00 Euro
5.	Ministry of Education, Science, Technology and Innovation	410,859.00 Euro
6.	Ministry of Regional Development	215,000.00 Euro
7.	Ministry of Foreign Affairs and Diaspora	305,500.00 Euro
8.	Ministry of Agriculture Forestry and Rural Development	55,736.00 Euro
	<u>MUNICIPALITIES</u>	
1.	Municipality of Gragash	89,180.00 Euro
2.	Municipality of Ferizaj	169,008.00 Euro
3.	Municipality of Drenas/Gllogoc	121,379.65 Euro
4.	Municipality of Gracanica	232,471.44 Euro
5.	Municipality of Kaçanik	68,350.00 Euro
6.	Municipality of Kamenica	109,093.00 Euro
7.	Municipality of Lipjan	147,000.00 Euro
8.	Municipality of Artanë/Gjilan	199,654.00 Euro
9.	Municipality of Obiliq	57,300.00 Euro
10.	Municipality of Prishtina	801,666.96 Euro
11.	Municipality of Prizren	605,025.00 Euro
12.	Municipality of Skenderaj	98,350.00 Euro
13.	Municipality of Suhareka	55,200.00 Euro
14.	Municipality of Vitia	38,000.00 Euro
15.	Municipality of Podujeva	94,400.00 Euro
16.	Municipality of Vushtrri	337,308.76 Euro
17.	Municipality of Istog	209,427.35 Euro
18.	Municipality of Gjakova	165,350.00 Euro
19.	Municipality of Fushe Kosova	24,300.00 Euro
20.	Municipality of Hani i Elezit	14,000.00 Euro

21.	Municipality of Shtime	115,101.12 Euro
22.	Municipality of Junik	81,418.55 Euro
23.	Municipality of Klina	2,000.00 Euro
24.	Municipality of Mitrovica	19,300.00 Euro
25.	Municipality of Malisheva	18,000.00 Euro
26.	Municipality of Rahovec	2,300.00 Euro
27.	Municipality of Novobrd	3,000.00 Euro

The following table includes the reports according to OPM, Line Ministries and Municipalities which reported that they did not allocate funds or failed to report at all.

NO.	Institution name	They reported that they have not allocated funds for CSOs in 2022
	<u>OPM and Ministries that have not allocated funds</u>	
9.	MLGA - Ministry of Local Government Administration	It has not allocated funds
10.	MoJ - Ministry of Justice	It has not allocated funds
11.	MESPI - Ministry of Environment, Spatial Planning and Infrastructure	It has not allocated funds
12.	MIA - Ministry of Internal Affairs	It has not allocated funds
13.	MH - Ministry of Health	It has not allocated funds
14.	MCR - Ministry of Communities and Returns	It has not allocated funds
15.	MIET – Ministry of Industry, Entrepreneurship and Trade	It has not allocated funds

	<u>MUNICIPALITIES that have not allocated funds</u>	
28	MUNICIPALITY OF KLLOKOT	It has not allocated funds
29	MUNICIPALITY OF SHTERPCE	It has not allocated funds
30	MUNICIPALITY OF RANILLUG	It has not allocated funds
31	MUNICIPALITY OF LEPOSAVIC	It has not allocated funds
32	MUNICIPALITY OF MAMUSHA	It has not allocated funds

<u>Municipality that failed to report</u>	
33	Municipality of Peja/ failed to report
34	Municipality of Partesh/ failed to report
35.	Northern Mitrovica Municipality/ failed to report
36.	Municipality of Zvecan/ failed to report
37	Municipality of Zubin Potok/ failed to report
38	Municipality of Deçan/ failed to report

4.2 Financial support for NGOs from the OPM and Ministries for 2022

According to the reports we have received from the institutions in 2022, there is a significant decrease in the funding of the number of NGOs, while the amount increased. The data presented below show the amount of public financial support for NGOs according to the reports received by the relevant ministries which was allocated in 2022 and the same was compared with the previous year 2021.

If we analyze the data of public financial support, we can conclude that in terms of the amount of financial support, the institutions that have mostly supported NGO projects are the Ministry of Culture, Youth and Sports, the Ministry of Finance, Labour and Transfers and the Office of the Prime Minister. Figure 9 below shows that the amount of financial support within the Office of the Prime Minister and Ministries is presented according to the data of the platform for funding for 2022.

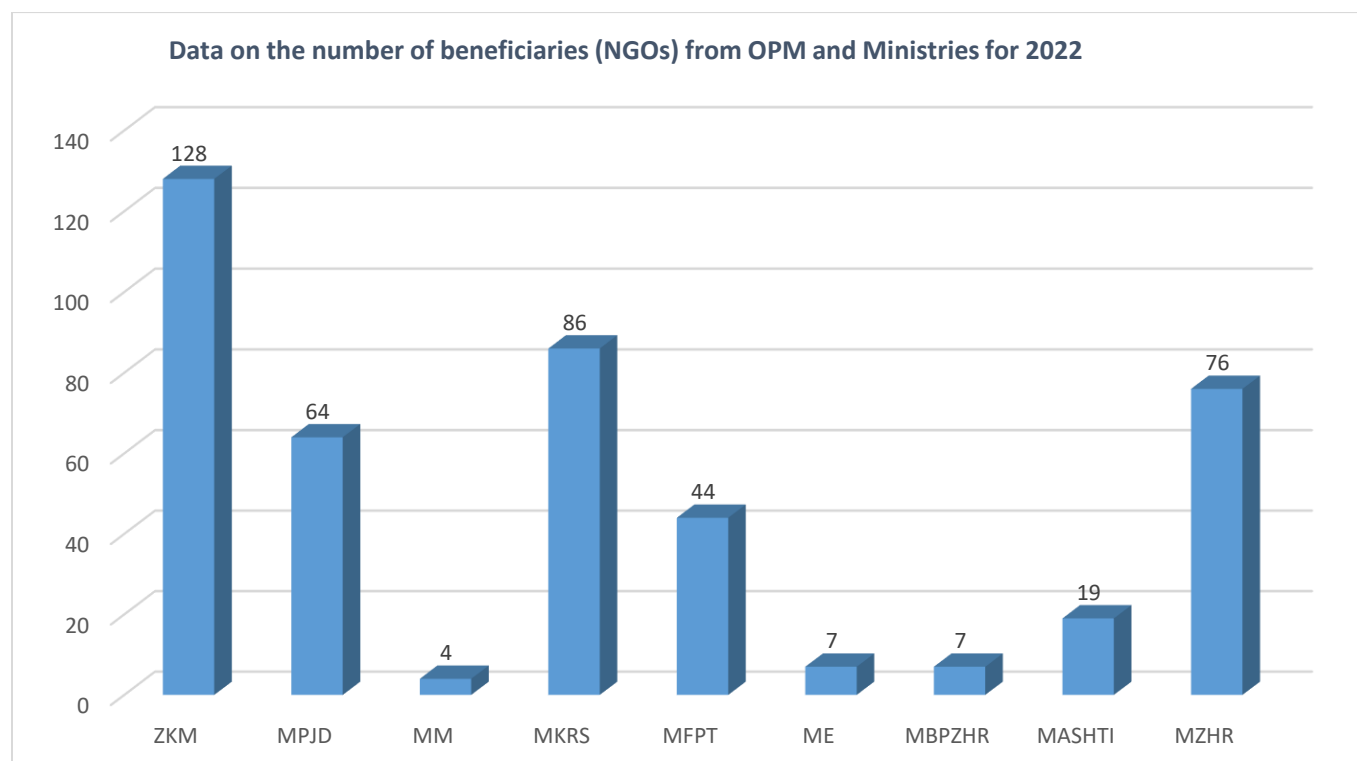

Figure 9. Data on the number of beneficiaries (NGOs) from OPM and Ministries according to the platform for 2022

Data on the number of beneficiaries are also presented in tabular form for the year 2022, as follows.

No.	Institution name	No. of beneficiary NGOs
I.	Office of the Prime Minister	128
1.	Ministry of Culture Youth and Sports	86
2.	Ministry of Defence	04
3.	Ministry of Finance, Labour and Transfers	44
4.	Ministry of Economy	07
5.	Ministry of Education, Science, Technology and Innovation	19
6.	Ministry of Regional Development	76
7.	Ministry of Foreign Affairs and Diaspora	64
8.	MAFRD	07
Total beneficiary NGOs		435

Figure 10 shows the data according to the institutions' reporting to the platform for funding for public financial support for NGOs, in the amounts indicated by the Office of the Prime Minister and Line Ministries for each separately. What is worth highlighting is that OPM, MCYS, MRD, MEST, MFAD, MFLT are the ones allocating the majority of funds.

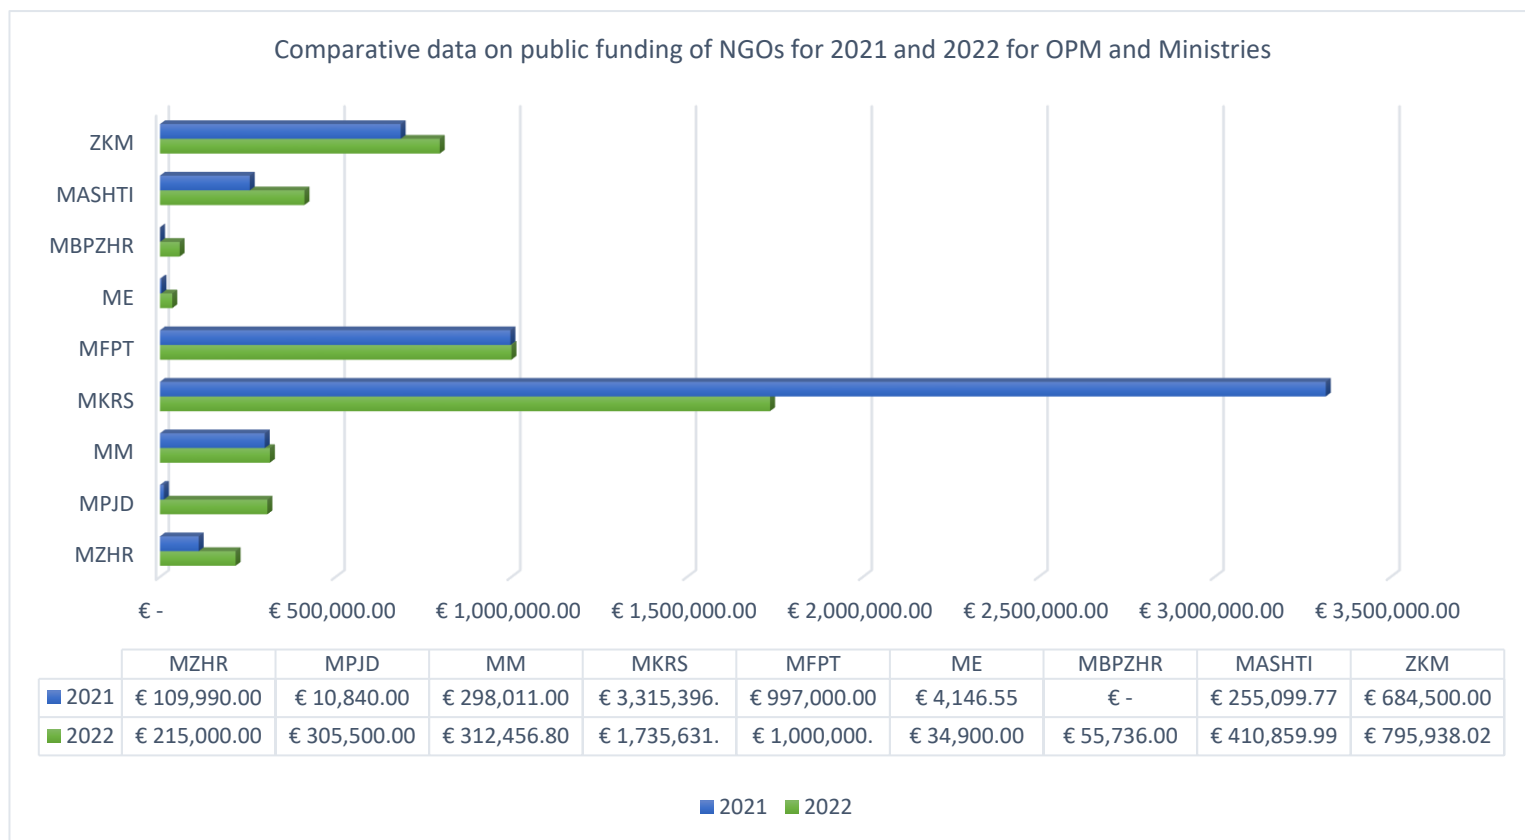

Figure 10. Comparative data on public funding of NGOs for 2021 and 2022 for OPM and Ministries

4.2.1 Number of projects and amounts of financial support for NGOs benefiting from the financial support of the Office of the Prime Minister and Ministries

In order to provide a clearer overview, Figure 11 below shows the number of beneficiary NGOs within the Office of the Prime Minister and Ministries. The following data are processed in such a way that although in many cases NGOs have received payments more than once, the figure shows the processed data for the number of beneficiaries within the OPM and each ministry, which means that even in cases where an NGO has benefited more than once within the year, it is considered a beneficiary NGO for the purposes of the report. This means that within the amount, more than one project may have been supported within the year. Also, in many cases it has been evidenced that the payments to NGOs have come from different economic codes within the same budget organization, which points out that planning has not yet been done appropriately by Budget organizations. For the preparation of the following data regarding the number of beneficiary NGOs, the reports provided by budget organizations to the platform for funding and the OGG/OPM were taken as a basis.

Figure 11 shows that the largest number of beneficiary organizations in 2022 are within the Ministry of Internal Affairs with 128 NGOs, the Ministry of Culture, Youth and Sports with 86 NGOs, the Ministry of Regional Development with 76 NGOs, the Ministry of Internal Affairs with 64 NGOs and the Ministry of Finance, Labour and Transfers with 44 NGOs.

From an analysis of the data provided, it can be seen that most of the NGOs that benefited from financial support in 2022, have also received support in previous years.

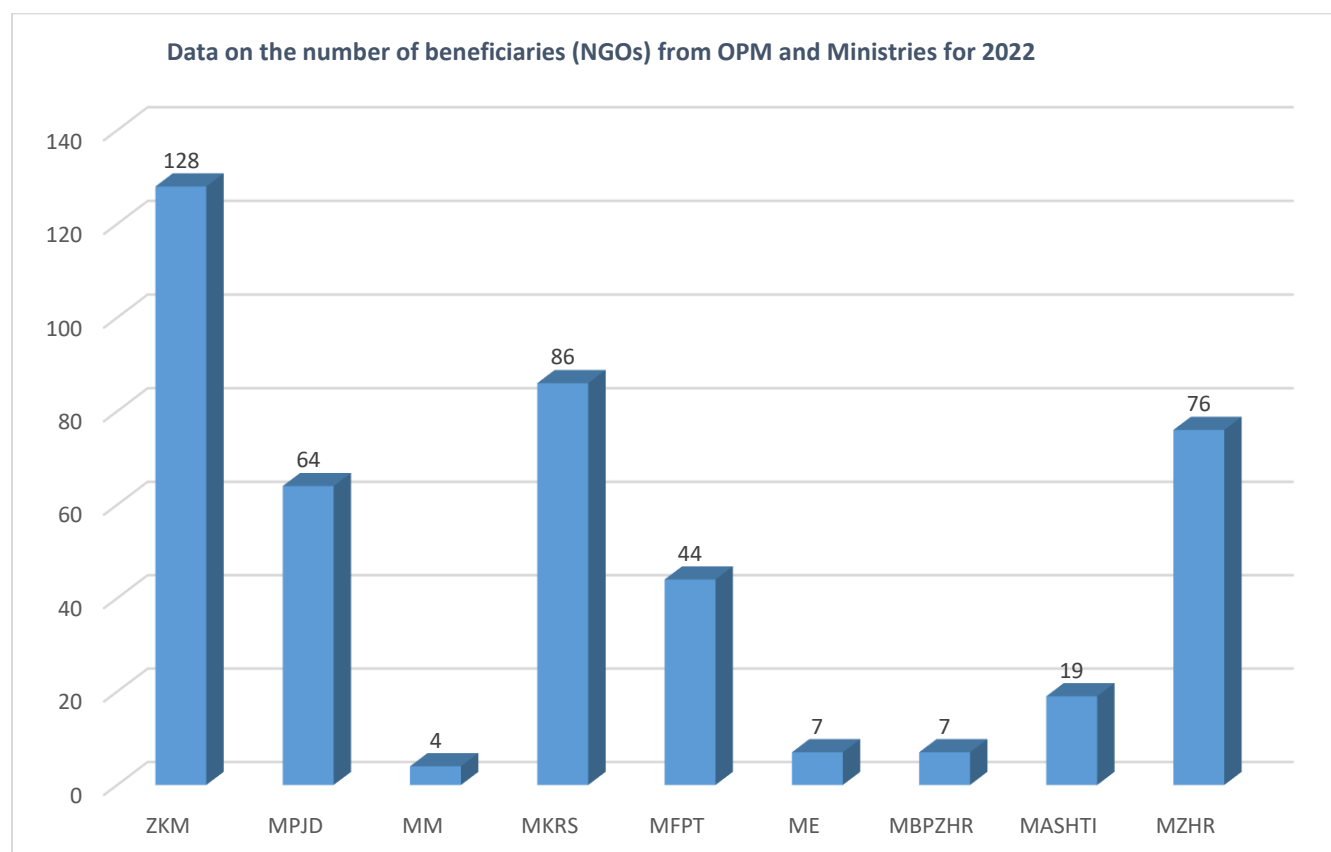

Figure 11. Number of beneficiary NGOs by OPM and Ministries for 2022 according to the platform

4.2.3 Analysis of public calls at the level of Ministries

During the preparation of this report, some of the institutions that have provided the most public financial support to NGOs, and the activity of which is related to continuous support of Civil Society, have been analyzed. From a general analysis of these institutions, it can be seen that public institutions have established practices for launching public calls and consequently the same have progressed 2022, marking an indisputable progress in the preparation of public calls, their publication and the selection of applicants.

The OPM data and those of the Office of Community Affairs and the Language Commissioner have also been analyzed and it is worth noting how the model budget organizations operate in public calls and in the reporting process and complying with procedures under the regulation.

This was definitely achieved in cooperation with OGG and through the coordinator of the Office of Community Affairs, who was appointed this year for the first time and reported directly on the platform <http://ojqfinancime.rks-gov.net/lista-e-hollesishme/>, which was used by the Office of Community Affairs for the first time this year. Also, the data reported by the funding coordinator to the Language Commissioner and AGE were in full line with the Treasury data.

In this context, the data of other institutions have also been analyzed, and the data from MD - which are in full compliance with the Treasury data are to be appreciated, while the MFAD is almost in line with the Treasury data.

It is also worth noting is that the OCM reported, through the office coordinator, directly on the platform <http://ojqfinancime.rks-gov.net/lista-e-hollesishme/> which, as mentioned above in the report, this office has used this procedure for the first time this year. The data reported by the funding coordinator within AGE were in full line with the Treasury data.

The following findings are reported from the OCA within the OPM:

- Calls are in line with the OCA scope
- The priorities of the public calls have been defined;
- Amounts and number of beneficiaries have been determined;
- Time limits have been set;
- The criteria for evaluating applications have been defined
- Application instructions are provided
- The lists of beneficiaries have also been published

Within the Ministry of Regional Development (MRD), several public calls announced in 2021 have been analyzed. The Ministry launched several public calls in different priority areas, taking into account its scope:

From these public calls, we can conclude that:

- The priorities of the public calls have been defined;
- Amounts and number of beneficiaries have been determined;
- Time limits have been set;
- The criteria for evaluating applications have been defined
- Application instructions are provided
- The lists of beneficiaries have also been published
- Decisions on calls, etc., have been announced.

It is also worth noting that the MD, MRD and MCYS reported, through the coordinators within the Ministries, directly on the platform <http://ojqfinancime.rks-gov.net>

Ministries launched several public calls in different priority areas, taking into account their wide scope of their respective ministry.

From these public calls, we can conclude that:

- *Calls are in line with the Ministry's scope;*
- *The priorities of the public calls have been defined;*
- *The minimum and maximum amounts and also the number of beneficiaries have been determined;*
- *Time limits have been set;*
- *The criteria for evaluating applications have been defined*
- *Application instructions are provided*
- *The lists of beneficiaries have also been published*

The data reported by the funding coordinator within these ministries were in full line with the Treasury data.

4.3 Support within the MUNICIPALITIES

The Republic of Kosovo has a total of 38 municipalities, which according to the Law on Public Financial Management and Accountability are budgetary organizations. Out of these 38 municipalities, according to the reporting data they provided, 26 municipalities reported directly on the platform, 01 municipality reported by e-mail, 04 reported that they did not support NGOs and 07 failed to report in 2022.

The data reported by the municipalities directly on the platform show that a total of Euro was transferred to the accounts of Non-Governmental Organizations in 2022.

If we make a comparison of the amount of public funding for NGO projects from municipalities in 2022 with those of 2021, there is a significant increase in the funding of Non-Governmental Organizations at the municipal level, as well as reporting directly on the platform for funding and implementation of the regulation and criteria for funding of NGOs.

The following figure shows the public financial support for each municipality for 2022, making a comparison with the previous year 2021 and the data in the figure are according to the Platform.

Comparative data on public funding of NGOs for 2021 and 2022

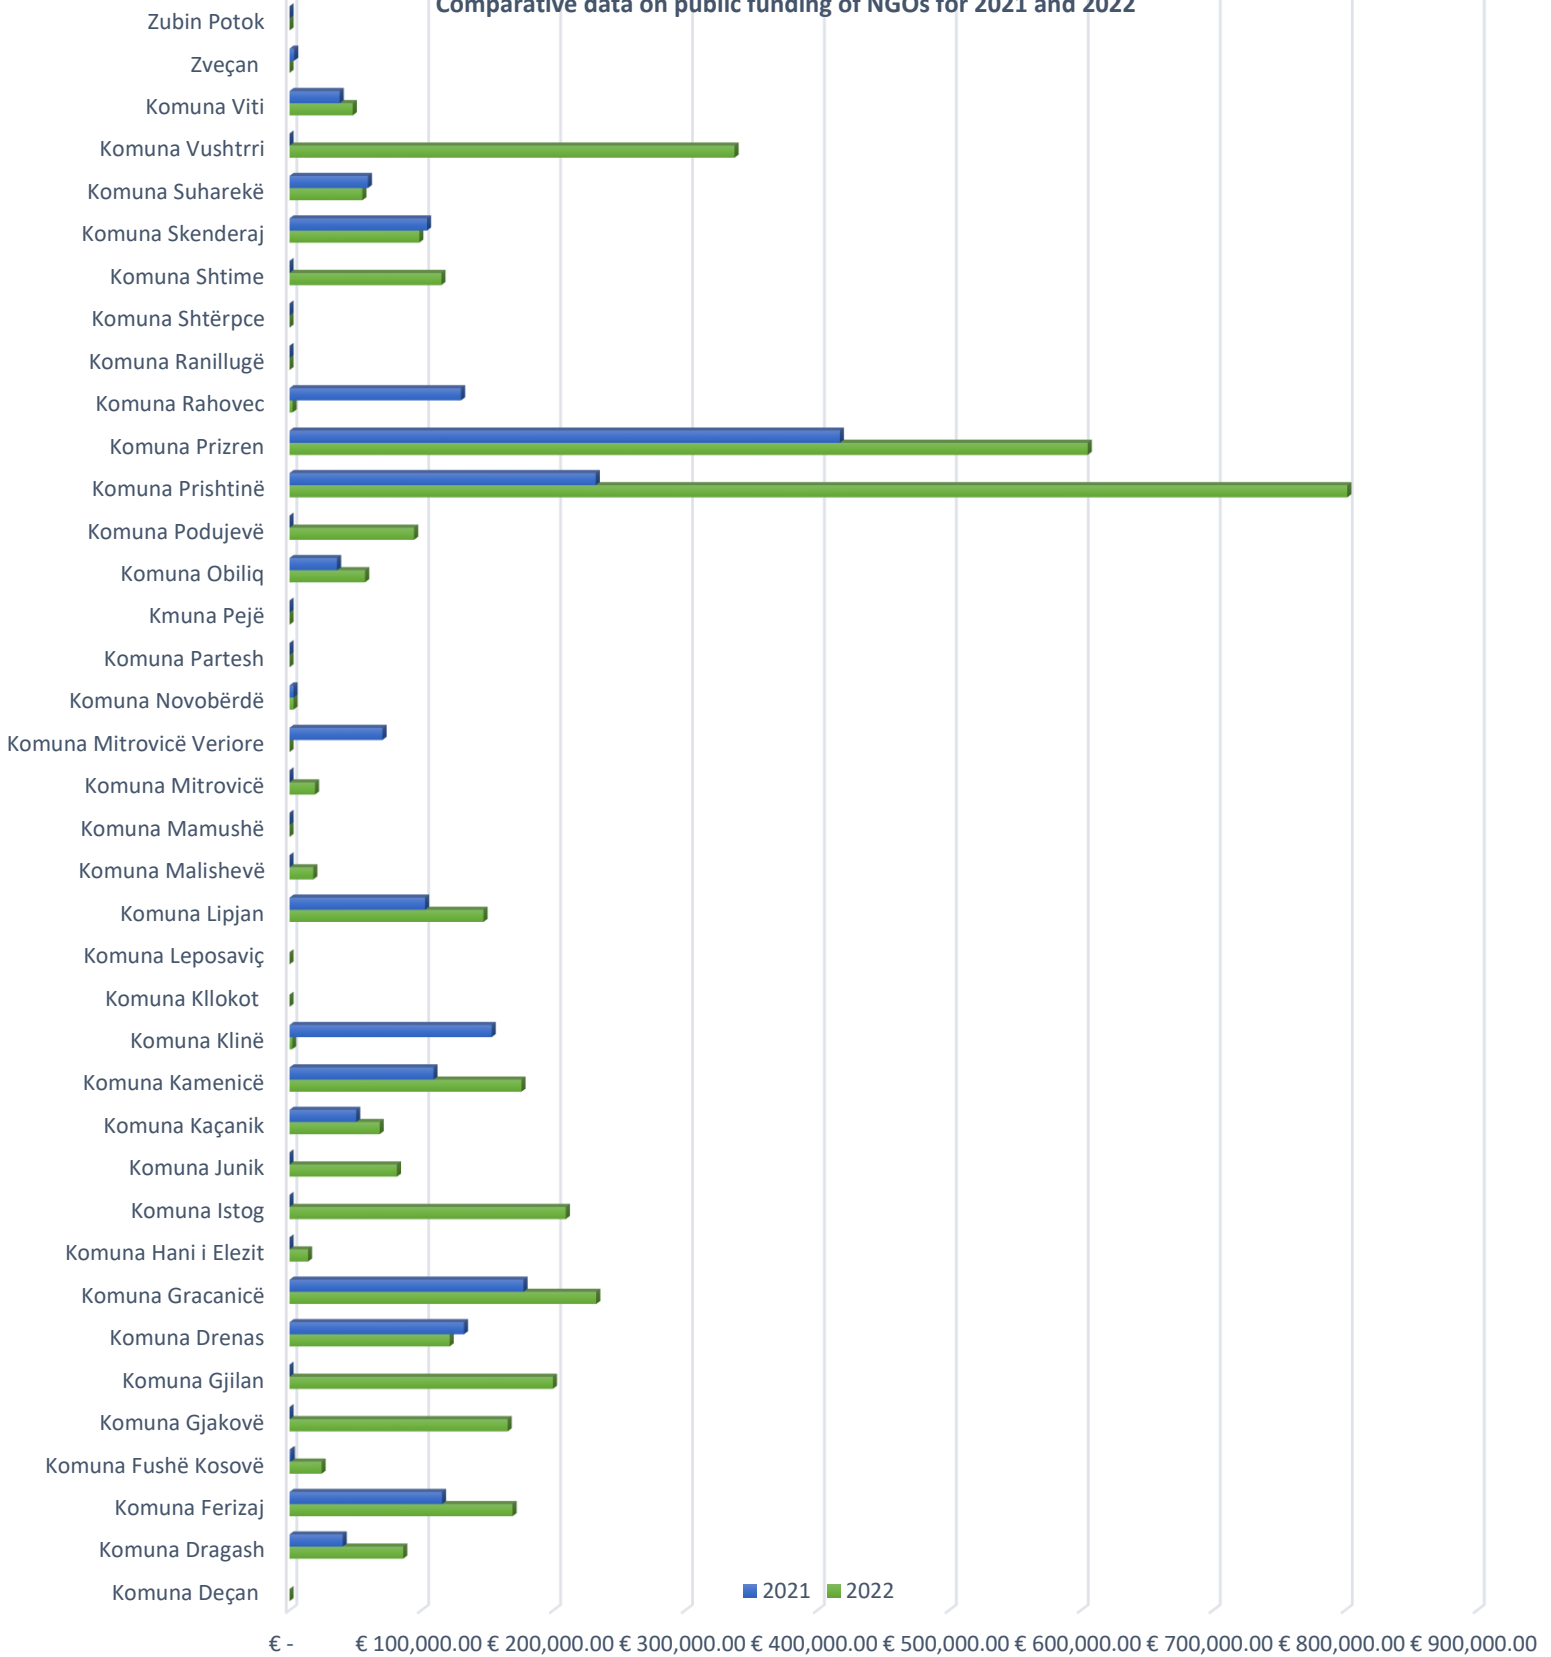

Figure 12. Comparative data on public funding of NGOs for 2021 and 2022 for Municipalities

4.3.2 Analysis of public calls at the level of Municipalities

During the preparation of this report, the public calls launched by a large number of municipalities were analyzed. From a general analysis of these institutions, it can be seen that public calls have progressed in 2022, marking an indisputable progress in the preparation of public calls, their publication and the selection of applicants. Municipalities have mainly supported projects within their scope and compared to previous years, it can be clearly established that there was an advancement in the preparation of public calls, and in the progress of the entire process of public funding of NGOs and especially in the process of reporting directly on the platform.

Municipalities of Istog, Graçanica, Junik, Kamenica, Kaçanik, Drenas made quite an accurate reporting of data for NGOs in 2022, recording quite a correct reporting in line with the Treasury data, yet there are always technical omissions and need for corrections and correct reporting.

From the analysis of the reports and calls launched by the municipalities in 2022, we have a significant improvement in their content and in the implementation of the criteria of Regulation MF-04/2017.

- *Calls are in line with the municipal scope;*
- *The priorities of the public call have been defined, the priority areas have been defined, as well as the activities that will be supported through public calls;*
- *The minimum and maximum amounts have been determined, but the number of beneficiaries has not been determined in all calls;*
- *The conditions for application have been defined, including the deadlines and the method of application thereof. Municipality of Prishtina, unlike other municipalities, has established an online application system.*
- *Application instructions are provided, including all necessary forms;*
- *Public calls have also been launched regarding the appointment of external members of the evaluation committee;*
- *Preliminary and final results have been published on the website of the municipality;*
- *The criteria for evaluating applications have been defined according to the regulation;*
- *The lists of beneficiaries have also been published;*

Municipalities have reported and submitted reports on public funding of NGOs for 2022 according to the criteria and standards of the regulation, most of the municipalities have reported directly on the platform and also in line with the Treasury data.

4.3.3 The number of NGOs benefiting from the funding of the municipalities and the division according to the amounts of financial support

Even in 2022, a significant number of non-governmental organizations have been supported at the level of Municipalities in the Republic of Kosovo, with a total of 1060 NGOs. Compared to the previous year 2021, there is a decrease in the total number of non-governmental organizations that have

benefited from financial support for their projects, but there this a larger amount of funds allocated to NGO projects.

The following figure graphically shows the number of NGOs that have benefited in each of the municipalities during 2022.

Data on the number of beneficiaries (NGOs) from Municipalities for 2022

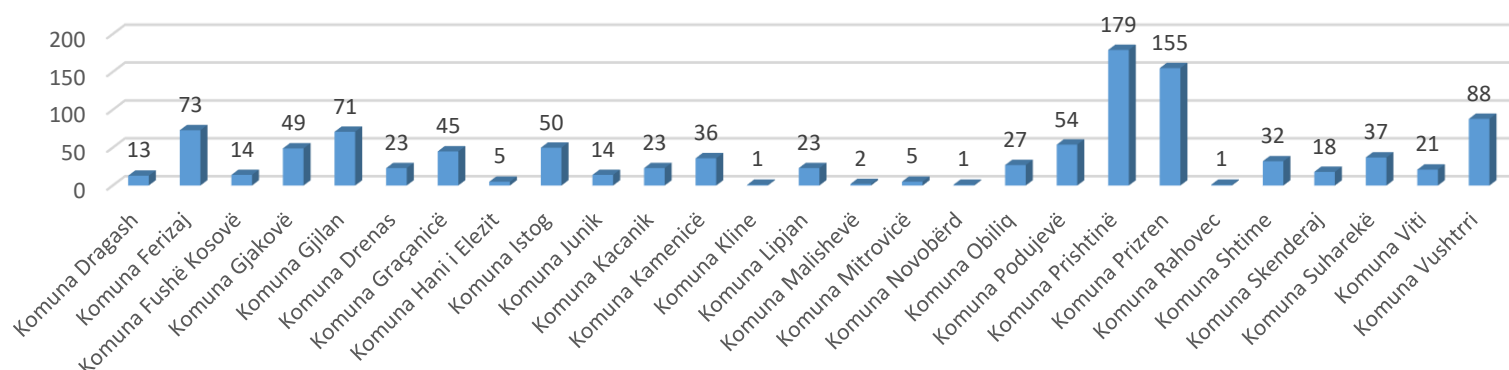

Figure 13. The number of NGOs that have received financial resources from the municipalities of the Republic of Kosovo for 2022

Below are presented in tabular form the data on the number of beneficiary NGOs from each Municipality of the Republic of Kosovo according to the data reported by institutions either on the platform or via e-mail and those that failed to report are marked by 0 projects.

NO.	Institution name	No. of beneficiary NGOs
1	Municipality of Dragash	13
2	Municipality of Ferizaj	73
3	Municipality of Drenas	23
4	Municipality of Graçanica	45
5	Municipality of Kaçanik	23
6	Municipality of Kamenica	36
7	Municipality of Klina	01
8	Municipality of Lipjan	23
9	Municipality of North Mitrovica	0

10	Municipality of Artanë/ Novo Berde	01
11	Municipality of Obiliq	27
12	Municipality of Prizren	155
13	Municipality of Prishtina	179
14	Municipality of RahoveC	01
15	Municipality of Skenderaj	18
16	Municipality of Suhareka	37
17	Municipality of Vitia	21
18	Municipality of Zvecan	0
19	Municipality of Shterpce	0
20	Municipality of Klllokot	0
21	Municipality of Fushe Kosova	14
22	Municipality of Podujeva	54
23	Municipality of Shtime	32
24	Municipality of Malisheva	02
25	Municipality of Mamusha	0
26	Municipality of Deçan	0
27	Municipality of Gjakova	49
28	Municipality of Istog	50
29	Municipality of Peja	0
30	Municipality of Junik	14
31	Municipality of Mitrovica	05
32	Municipality of Vushtrri	88
33	Municipality of Zubin Potok	0
34	Municipality of Gjilan	71
35	Municipality of Partesh	0
36	Municipality of Hani i Elezit	05
37	Municipality of Ranillug	0
38	Municipality of Leposavic	0
	Total	1060

Annexes attached as part of this Report (6.4. LIST OF BENEFICIARY NGOs AND THE AMOUNT OF PUBLIC FINANCIAL SUPPORT FOR T 2022 ACCORDING TO THE TREASURY FOR OPM AND LINE MINISTRIES, ANNEX 6.5: LIST OF BENEFICIARY NGOs AND THE AMOUNT OF PUBLIC FINANCIAL SUPPORT FOR 2022 ACCORDING TO THE TREASURY FOR MUNICIPALITIES and ANNEX 6.6. LIST OF BENEFICIARY NGOs AND THE AMOUNT OF PUBLIC FINANCIAL SUPPORT FOR 2022 ACCORDING TO THE TREASURY FOR THE OFFICE OF THE PRESIDENT) are data obtained from the Treasury of the Republic of Kosovo and selected only from the category of Subsidies for non-public entities). Therefore, the Office of Good Governance within the Office of the Prime Minister, as we indicated

above in this report, is not responsible for the accuracy of direct reports and notes regarding the names of NGOs or the fact that their names are registered as such with the Treasury or Platform.

5. CONCLUSIONS AND RECOMMENDATIONS

In the conclusions of the report, we can point out the reporting of institutions to the Office for Good Governance/Office of the Prime Minister, especially this year's reporting directly on the platform for funding <http://ojqfinancime.rks-gov.net> as a significant improvement. Although this reporting is significantly better, the submission of reports by many budget organizations still remains challenging. Therefore, even in this report its part thereof, it can be seen that a number of conclusions and recommendations remain the same from the previous year.

Due to the lack of reports, the OPM had to use the data from the Treasury for comparison and analysis of these reports this year, which do not provide the appropriate information, especially regarding the details of the projects funded. They provide more financial data than content related to the supported projects.

Regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of Public Funding of NGOs uniquely regulates the public funding of NGOs for all budget organizations. This regulation derives from the the Law on Public Financial Management and Accountability. Article 53 of the LPFMA stipulates: *"The Minister shall have the exclusive authority to issue rules governing the process that shall be followed by the concerned budget organization or public authority when selecting the recipient or recipients and determining the amount or amounts to be provided as a grant, donation or subsidy."*¹

Therefore, public institutions should bear in mind that failure to implement this regulation can be directly considered non-compliance with the Law on Public Finance Management and Accountability, which is the key legislation in the area of Public Finance in the Republic of Kosovo.

The reporting of public institutions should be structured in standard forms as required by regulations, and now it is even easier for institutions to enable transparency of the use of public funds. Budget Organizations must report any public financial support that has been allocated to entities that are registered as Non-Governmental Organizations.

From the data analysis of public financial support for NGOs for 2021, it can be seen that the Government of the Republic of Kosovo and other public institutions have continued to provide significant public financial support for NGOs. The analysis and reporting of the institutions through <http://ojqfinancime.rks-gov.net> clearly show an improvement and an increased awareness at the level of the Office of the Prime Minister, Ministries, Municipalities and other institutions for public financial support for NGOs should be done through public calls. Thus, according to the 2021, it is observed that the provision of direct financial support for NGOs has recorded a serious decline.

¹ Article 53, para. 3, Law No. 03/L-048 on Public Finance Management and Accountability. Electronic version available at: <https://gzk.rks-gov.net/ActDetail.aspx?ActID=2524>

From data analysis reported directly on the platform <http://ojqfinancime.rks-gov.net> and also from the data collected by the Office of Good Governance, a significant improvement is observed this year compared to the previous year in terms of the transparency of funding of NGO projects. This is due to the fact that the number of public calls by public institutions has increased to a great extent. However, there are still many cases of direct public financial support through *ad hoc* decisions. Also, from the data reported for 2021, we can consider that there is an improvement in terms of monitoring the projects and programs funded for NGOs. Contrary to the previous year, among the institutions that have reported, there is an improvement in the data related to the names of the projects as well as the activities of the projects funded. However, much work remains to be done and there is room for improvement in reporting. On the other hand, public institutions that failed to report at all, must prepare and publish their reports as soon as possible, according to the requirements of the regulation. All public institutions, including ministries, municipalities and independent agencies, should enhance transparency regarding public financial support, by preparing and publishing on their websites regular annual reports on public financial support for NGOs.

It is worth noting that even this year the majority of public financial support in 2021 was extended to areas such as sports, culture, sustainable development, where capital projects and projects in support of certain categories have been implemented through NGOs, with the categories of war, people with special needs, as well as areas related to human rights included in the funding areas..

In 2021, reporting was initiated directly on the platform <http://ojqfinancime.rks-gov.net> and as mentioned above, 47% of the institutions reported directly on the platform, 23% reported that they did not support government organizations and 30% failed to report. Thus, 39 institutions/budget organizations reported, while there are 17 that failed to report.

Pursuant to the regulation, these reports should include, among others: a) Name of the provider of public financial support (Ministry, Municipality, Agency, including the specific programs wherewith public financial support is provided); b) Method of allocation of public financial support (through call/direct contracting); c) Public call through which the financial support was offered; d) Full name of the beneficiaries of the financial support (including other data of the beneficiary, address, registration number and fiscal number and data of the responsible person of the NGO; e) Name of the project/program or activities funded; f) Amount allocated to fund the project/program; g) Duration of the project and the status of its implementation; h) General and specific funding areas; i) Direct and indirect beneficiaries; j) Key activities or services conducted within the project; k) Geographic data regarding the place of implementation of the project; l) Number of people who have benefited or have been employed within the project/program. The form 20 must be used for the purpose of standard reporting, which is an integral part of the regulation and the platform for funding <http://ojqfinancime.rks-gov.net> and as of this year, the coordinators had the opportunity to report directly on the platform.

Recommendations to budget institutions/organizations regarding the allocation of public funds and the proper implementation of Regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of Public funding of NGOs

1. Public institutions/budget organizations should use the criteria and standards of Regulation MF-No. 04/2017 as an important guide to ensure that public funding of NGOs is effective and fair.
2. All public institutions/budget organizations must ensure that all public calls are made in accordance with public funding criteria and standards and that those criteria and procedures are applied fairly and equally to all budget organizations.
3. Budget organizations must establish clear criteria in public calls in accordance with the requirements of the regulation. Such criteria should also include the types of permissible activities, the types of permissible and impermissible expenses, the minimum and maximum amount of funding, and other specific requirements required by regulation MF-No. 04/2017 on the Criteria, Standards and Procedures of Public Funding of NGOs.
4. Based on the criteria of Regulation MF-No. 04/2017, competitiveness should only be between NGOs.
5. Institutions/budget organizations must not determine large differences between the minimum and maximum amounts for projects when preparing the public call . This will facilitate the work of the evaluation committees and will enable a fair evaluation.
6. According to the rules and the standard form of the regulation, the institutions must publish the reports on public funding of NGOs on their websites/ on the platform for funding.
7. The Terms of Reference for the Contact Points/Coordinators to be reviewed, approved and forwarded to the responsible institutions.
8. Continue with training/capacity building for the contact points/coordinators for funding, reporting and planning procedures on public funding of NGOs by the Office of Good Governance/Office of the Prime Minister and the Ministry of Finance.
9. It is recommended that the contact points in the ministries and municipalities need to be supported by their superiors in the preparation of the Annual Report on Public Funding of NGOs according to the requirements of the applicable legislation.
10. Ensure that all budget organizations have a clear and fair process in place for evaluating and monitoring the performance of non-governmental organizations that receive public funding. This will help to ensure that only those projects/NGOs that have a positive impact on the community and are implemented in line with institutional policies are funded.
11. Continue to enhance counseling and training of non-governmental organizations to apply for public funding and understand the regulation and procedures they must follow.
12. Promote the platform for public funding of NGOs <http://ojqfinancime.rks-gov.net>
13. Promote the transparency and accountability of budget organizations in the reporting of expenditures and performance of projects funded by public funds.
14. Use technology and innovation methods to ensure the effective and honest implementation of public funding procedures of NGOs. This may include the use of integrated financial

management systems, the use of online applications and the establishment of high security standards to protect sensitive data and information.

15. Keep the focus that the purpose of public funding of NGOs is to help achieve the goals of public policies and improve the quality of life in the community. To achieve this goal, it is important for budget organizations to be in constant contact with non-governmental organizations, receive feedback and suggestions from them and ensure the most effective use of public funding resources.
16. Create a culture of partnership and cooperation with non-governmental organizations. The interaction and cooperation of budget organizations with non-governmental organizations should be based on respect, dialogue and assessment of their role in meeting common goals.
17. Finally, make sure that public funding of NGOs is fair and honest at all times and at all levels. To achieve this goal, budget organizations must have regular performance monitoring and evaluating processes in place and take corrective measures if violations of regulations, standards and procedures are found.
18. The evaluation committees need to pay attention to the monitoring and focus that non-governmental organizations have a special responsibility to ensure the most effective and honest use of public funds and report their expenditure accurately and transparently.
